ELSEVIER

Forest Ecology and Management 99 (1997) 357–367

Forest Ecology and Management

Cumulative Author Index, Vols. 90–99

Abbot, P., J. Lowore and M. Werren
Models for the estimation of single tree volume in four Miombo woodland types 97 (1997) 25
Aceñolaza, P.G., *see* Grau, H.R. et al.
Adams, M.B., T.R. Angradi and J.N. Kochenderfer
Stream water and soil solution responses to 5 years of nitrogen and sulfur additions at the Fernow Experimental Forest, West Virginia 95 (1997) 79
Ådjers, G., *see* Kuusipalo, J. et al.
Ågren, G.I.
Modeling biological systems 96 (1997) 185
Ahokas, H.
Acidification of forest top soils in 60 years to the southwest of Helsinki 94 (1997) 187
Ahrens, G.R., *see* Knowe, S.A. et al.
Altman, A., *see* Ma, H.-C. et al.
Amadalo, B.A., *see* Heineman, A.M. et al.
Amateis, R.L., H.E. Burkhart and J. Liu
Modeling survival in juvenile and mature loblolly pine plantations 90 (1997) 51
Aminah, H., J. McP. Dick and J. Grace
Rooting of *Shorea leprosula* stem cuttings decreases with increasing leaf area 91 (1997) 247
Ananthakrishnan, G., *see* Ravikumar, R. et al.
Anderson, T., *see* Everett, R. et al.
Angradi, T.R., *see* Adams, M.B. et al.
Anusarnsunthorn, V., *see* Hardwick, K. et al.
Appasamy, T., *see* Ravikumar, R. et al.
Arturi, M.F., *see* Grau, H.R. et al.
Astini, E., *see* Dorado, M. et al.
Aust, W.M., S.H. Schoenholtz, T.W. Zaebst and B.A. Szabo
Recovery status of a tupelo–cypress wetland seven years after disturbance: silvicultural implications 90 (1997) 161
Bâ, A.M., *see* Sanon, K.B. et al.
Bailey, S.W., *see* Hornbeck, J.W. et al.
Baker, M.D. and M.J. Lacki
Short-term changes in bird communities in response to silvicultural prescriptions 96 (1997) 27
Barbour, R.J., S. Johnston, J.P. Hayes and G.F. Tucker
Simulated stand characteristics and wood product yields from Douglas-fir plantations managed for ecosystem objectives 91 (1997) 205
Barker, K.G., *see* Ford, W.M. et al.
Barnett, J.P., *see* Gravatt, D.A. et al.
Barreto, P., *see* Vidal, E. et al.
Bäumler, R. and W. Zech
Atmospheric deposition and impact of forest thinning on the throughfall of mountain forest ecosystems in the Bavarian Alps 95 (1997) 243
Beke, N., *see* McKenney, D.W. et al.
Bell, F.W., *see* Mallik, A.U. et al.
Bently Wigley, T. and T.H. Roberts
Landscape-level effects of forest management on faunal diversity in bottomland hardwoods 90 (1997) 141
Bergeron, Y. and B. Harvey
Basing silviculture on natural ecosystem dynamics: an approach applied to the southern boreal mixedwood forest of Quebec 92 (1997) 235
Bergez, J.-E. and C. Dupraz
Transpiration rate of *Prunus avium* L. seedlings inside an unventilated treeshelter 97 (1997) 255
Bertault, J.-G. and P. Sist
An experimental comparison of different harvesting intensities with reduced-impact and conventional logging in East Kalimantan, Indonesia 94 (1997) 209
Binkley, D.
Bioassays of the influence of *Eucalyptus saligna* and *Albizia falcataria* on soil nutrient supply and limitation 91 (1997) 229
Binkley, D. and P. Högberg
Does atmospheric deposition of nitrogen threaten Swedish forests? 92 (1997) 119
Birdsey, R., *see* Brown, S. et al.
Blanco Jorge, L.A. and G.J. Garcia
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Bondarev, A.
Age distribution patterns in open boreal Dahurican larch forests of Central Siberia 93 (1997) 205
Bone, R., M. Lawrence and Z. Magombo
The effect of a *Eucalyptus camaldulensis* (Dehn) plantation on native woodland recovery on Ulumba Mountain, southern Malawi 99 (1997) 63
Bonnemann, A., *see* Muschler, R.G. et al.
Borges, J.G., Â.C. Oliveira and M.A. Costa
A quantitative approach to cork oak forest management 97 (1997) 223
Boring, L.R., *see* Elliott, K.J. et al.
Bouchard, A., *see* Cogliastro, A. et al.

Boucher, D.H. and M.A. Mallona
Recovery of the rain forest tree *Vochysia ferruginea* over 5 years following Hurricane Joan in Nicaragua: a preliminary population projection matrix 91 (1997) 195
Bradfield, G.E., *see* Liang, Q. et al.
Bradshaw, G.A., *see* Song, B. et al.
Brand, G., *see* Leary, R.A. et al.
Brockway, D.G. and C.E. Lewis
Long-term effects of dormant-season prescribed fire on plant community diversity, structure and productivity in a longleaf pine wiregrass ecosystem 96 (1997) 167
Brokaw, N.V.L., *see* Whitman, A.A. et al.
Brown, A.D., *see* Grau, H.R. et al.
Brown, S., P. Schroeder and R. Birdsey
Aboveground biomass distribution of US eastern hardwood forests and the use of large trees as an indicator of forest development 96 (1997) 37
Buck, L., *see* Garrett, H.E.G. et al.
Buhlmann, K.A., *see* Mitchell, J.C. et al.
Burch Jr., W., *see* Song, Y. et al.
Burger, J.A., *see* Kim, D.Y. et al.
Burk, T., *see* Leary, R.A. et al.
Burkhart, H.E., *see* Amateis, R.L. et al.
Burton, P.J., *see* Coates, K.D. et al.
Buso, D.C., *see* Hornbeck, J.W. et al.
Bygrave, F.L., *see* Mo, J. et al.
Bygrave, F.L., *see* Mo, J. et al.
Cairns, D.W., *see* Parker, W.C. et al.
Camp, A., C. Oliver, P. Hessburg and R. Everett
Predicting late-successional fire refugia pre-dating European settlement in the Wenatchee Mountains 95 (1997) 63
Cao, Q.V., *see* Shi, K. et al.
Carreira, J.A., A.F. Harrison, L.J. Sheppard and C. Woods
Reduced soil P availability in a Sitka spruce (*Picea sitchensis* (Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153
Carter, D.R., *see* Merry, F.D. et al.
Cassell, D.L., *see* Stapanian, M.A. et al.
Chaar, H., F. Colin and C. Collet
Effects of environmental factors on the shoot development of *Quercus petraea* seedlings. A methodological approach 97 (1997) 119
Chambers, J.L., *see* Gravatt, D.A. et al.
Chen, J., *see* Song, B. et al.
Chen, R., R.D. Hill and R.T. Corlett
Energy and nutrient flow through the storage and consumption of upland phytomass fuel 93 (1997) 63
Chojnacky, D.C.
Modeling diameter growth for pinyon and juniper trees in dryland forests 93 (1997) 21
Christanty, L., J.P. Kimmins and D. Mailly
'Without bamboo, the land dies': A conceptual model of the biogeochemical role of bamboo in an Indonesian agroforestry system 91 (1997) 83
Christanty, L., *see* Mailly, D. et al.
Churin, J.-L., *see* Garbaye, J. et al.
Clawson, R.G., B.G. Lockaby and R.H. Jones
Amphibian responses to helicopter harvesting in forested floodplains of low order, blackwater streams 90 (1997) 225
Clawson, R.G., *see* Lockaby, B.G. et al.
Clawson, R.G., *see* Lockaby, B.G. et al.
Clawson, R.G., *see* McNabb, K.L. et al.
Cline, S.P., *see* Stapanian, M.A. et al.
Coates, K.D. and P.J. Burton
A gap-based approach for development of silvicultural systems to address ecosystem management objectives 99 (1997) 337
Cogliastro, A., D. Gagnon and A. Bouchard
Experimental determination of soil characteristics optimal for the growth of ten hardwoods planted on abandoned farmland 96 (1997) 49
Colin, F., *see* Chaar, H. et al.
Collet, C., *see* Chaar, H. et al.
Conner, R.N., *see* Ross, W.G. et al.
Conner, W.H., *see* Keeland, B.D. et al.
Corlett, R.T., *see* Chen, R. et al.
Costa, M.A., *see* Borges, J.G. et al.
Crawford, R.H., C.Y. Li and M. Floyd
Nitrogen fixation in root-colonized large woody residue of Oregon coastal forests 92 (1997) 229
Crombie, D.S.
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Deans, J.D., *see* Ingleby, K. et al.
DeBell, D.S., *see* Knowe, S.A. et al.
De Haes, H.A.U., *see* Pasicolan, P.N. et al.
De Marco Jr., P., *see* Louzada, J.N.C. et al.
Desanker, P.V., *see* Song, B. et al.
Desprez-Loustau, M.-L. and K. Wagner
Influence of silvicultural practices on twisting rust infection and damage in maritime pine, as related to growth 98 (1997) 135
Dexheimer, J., *see* Sanon, K.B. et al.
Diagne, O., *see* Ingleby, K. et al.
Dickinson, G.R., *see* Sun, D. et al.
Di Rienzo, J., *see* Dorado, M. et al.
Docherty, M. and S.R. Leather
Structure and abundance of arachnid communities in Scots and lodgepole pine plantations 95 (1997) 197
Dorado, M., E. Astini, G. Verzino, J. Di Rienzo and E. Perpiñal
Growth curves for *Pinus elliottii*, *Pinus taeda* and *Pinus radiata* in two areas of the Calamuchita Valley (Córdoba, Argentina) 95 (1997) 173
Doufoulon, G., *see* King, J. et al.
Duchesne, L.C., *see* Whittle, C.A. et al.
Duckert, D.R., *see* Morris, D.M. et al.
Ducousso, M., *see* Ingleby, K. et al.
Dupraz, C., *see* Bergez, J.-E. et al.
Eibl, B., *see* Montagnini, F. et al.
Ek, A.R., A.P. Robinson, P.J. Radtke and D.K. Walters
Development and testing of regeneration imputation models for forests in Minnesota 94 (1997) 129
Elfving, B. and A. Kiviste
Construction of site index equations for *Pinus sylvestris* L. using permanent plot data in Sweden 98 (1997) 125

Elfving, B., *see* Linder, P. et al.
Elliott, K.J., L.R. Boring, W.T. Swank and B.R. Haines
Successional changes in plant species diversity and composition after clearcutting a Southern Appalachian watershed 92 (1997) 67
Elliott, S., *see* Hardwick, K. et al.
Everett, R., D. Schellhaas, D. Spurbeck, P. Ohlson, D. Keenum and T. Anderson
Structure of northern spotted owl nest stands and their historical conditions on the eastern slope of the Pacific Northwest Cascades, USA 94 (1997) 1
Everett, R., *see* Camp, A. et al.
Ewel, J.J., *see* Harrington, R.A. et al.
Eyre, T.J. and A.P. Smith
Floristic and structural habitat preferences of yellow-bellied gliders (*Petaurus australis*) and selective logging impacts in southeast Queensland, Australia 98 (1997) 281
Fagg, C.W., *see* Ibrahim, A.M. et al.
Faille, A., *see* Pontailler, J.-Y. et al.
Fang, W. and S.L. Peng
Development of species diversity in the restoration process of establishing a tropical man-made forest ecosystem in China 99 (1997) 185
Faunt, K., *see* Williams, M.R. et al.
Fearnside, P.M.
Wood density for estimating forest biomass in Brazilian Amazonia 90 (1997) 59
Fearnside, P.M., *see* Silva–Forsberg, M.C. et al.
Felfili, J.M.
Dynamics of the natural regeneration in the Gama gallery forest in central Brazil 91 (1997) 235
Felker, P., *see* Patch, N.L. et al.
Felker, P., *see* Patch, N.L. et al.
Fenn, M.E., *see* Kiefer, J.W. et al.
Fife, D.N. and E.K.S. Nambiar
Changes in the canopy and growth of *Pinus radiata* in response to nitrogen supply 93 (1997) 137
Fisher, R., *see* Haggar, J. et al.
Fisher, R.F., *see* Powers, J.S. et al.
Floyd, M., *see* Crawford, R.H. et al.
Flynn, K., *see* Lockaby, B.G. et al.
Fölster, H., *see* Xu, Y.-J. et al.
Ford, W.M., J. Laerm and K.G. Barker
Soricid response to forest stand age in southern Appalachian cove hardwood communities 91 (1997) 175
Fownes, J.H., *see* Herbert, D.A. et al.
Fox, G., *see* McKenney, D.W. et al.
Franklin, J.F., *see* Song, B. et al.
Fredericksen, T.S., *see* Groninger, J.W. et al.
Fridman, J., *see* Valinger, E. et al.
Fries, C., O. Johansson, B. Pettersson and P. Simonsson
Silvicultural models to maintain and restore natural stand structures in Swedish boreal forests 94 (1997) 89
Fung, L., *see* Ma, H.-C. et al.
Gagnon, D., *see* Cogliastro, A. et al.
Ganapathi, A., *see* Ravikumar, R. et al.
Garbaye, J. and J.-L. Churin
Growth stimulation of young oak plantations inoculated with the ectomycorrhizal fungus *Paxillus involutus* with special reference to summer drought 98 (1997) 221
Garcia, G.J., *see* Blanco Jorge, L.A. et al.
Garrett, H.E.G. and L. Buck
Agroforestry practice and policy in the United States of America 91 (1997) 5
Garwood, N., *see* Hardwick, K. et al.
Geballe, G., *see* Song, Y. et al.
Geldenhuys, C.J.
Native forest regeneration in pine and eucalypt plantations in Northern Province, South Africa 99 (1997) 101
Geng, L., *see* Song, Y. et al.
Gerson, E.A. and R.G. Kelsey
Attraction and direct mortality of pandora moths, *Coloradia pandora* (Lepidoptera: Saturniidae), by nocturnal fire 98 (1997) 71
Gertner, G., *see* Köhl, M. et al.
Gerwing, J.J., *see* Vidal, E. et al.
Gillison, A.N., *see* Vanclay, J.K. et al.
Glitzenstein, J.S., *see* Liu, C. et al.
Golser, M. and H. Hasenauer
Predicting juvenile tree height growth in uneven-aged mixed species stands in Austria 97 (1997) 133
Gong, Y., *see* Mallik, A.U. et al.
Graae, B.J. and V.S. Heskjær
A comparison of understorey vegetation between untouched and managed deciduous forest in Denmark 96 (1997) 111
Grace, J., *see* Aminah, H. et al.
Grace, J., *see* Sharew, H. et al.
Grance, L., *see* Montagnini, F. et al.
Granier, A., *see* Marques, R. et al.
Grau, H.R., M.F. Arturi, A.D. Brown and P.G. Aceñolaza
Floristic and structural patterns along a chronosequence of secondary forest succession in Argentinean subtropical montane forests 95 (1997) 161
Gravatt, D.A., J.L. Chambers and J.P. Barnett
Temporal and spatial patterns of net photosynthesis in 12-year-old loblolly pine five growing seasons after thinning 97 (1997) 73
Green, P. and G.F. Peterken
Variation in the amount of dead wood in the woodlands of the Lower Wye Valley, UK in relation to the intensity of management 98 (1997) 229
Groninger, J.W., S.M. Zedaker and T.S. Fredericksen
Stand characteristics of inter-cropped loblolly pine and black locust 91 (1997) 221
Groot, A., *see* McKenney, D.W. et al.
Gunter, D.K., *see* Messina, M.G. et al.
Hadengganan, S., *see* Kuusipalo, J. et al.
Hagan, J.M., *see* Whitman, A.A. et al.
Haggar, J., K. Wightman and R. Fisher
The potential of plantations to foster woody regeneration within a deforested landscape in lowland Costa Rica 99 (1997) 55
Haggar, J.P., *see* Powers, J.S. et al.
Haines, B.R., *see* Elliott, K.J. et al.
Hall, D.O.
Biomass energy in industrialised countries—a view of the future 91 (1997) 17
Hall, J.B., *see* Ngulube, M.R. et al.

Hanchi, A. and M. Rapp
Stemflow determination in forest stands 97 (1997) 231
Hånell, B., *see* Hannerz, M. et al.
Hannerz, M. and B. Hånell
Effects on the flora in Norway spruce forests following clearcutting and shelterwood cutting 90 (1997) 29
Hansson, L.
Environmental determinants of plant and bird diversity in ancient oak–hazel woodland in Sweden 91 (1997) 137
Harcombe, P.A., *see* Liu, C. et al.
Harding, S., *see* Jensen, J.S. et al.
Härdter, R., W. Yin Chow and O. Soo Hock
Intensive plantation cropping, a source of sustainable food and energy production in the tropical rain forest areas in southeast Asia 91 (1997) 93
Hardwick, K., J. Healey, S. Elliott, N. Garwood and V. Anusarnsunthorn
Understanding and assisting natural regeneration processes in degraded seasonal evergreen forests in northern Thailand 99 (1997) 203
Harrington, R.A. and J.J. Ewel
Invasibility of tree plantations by native and non-indigenous plant species in Hawaii 99 (1997) 153
Harrington, T.B. and J.C. Tappeiner II
Growth responses of young Douglas-fir and tanoak 11 years after various levels of hardwood removal and understory suppression in southwestern Oregon, USA 96 (1997) 1
Harris, S.A., *see* Ibrahim, A.M. et al.
Harrison, A.F., *see* Carreira, J.A. et al.
Harvey, B., *see* Bergeron, Y. et al.
Hasenauer, H.
Dimensional relationships of open-grown trees in Austria 96 (1997) 197
Hasenauer, H., *see* Golser, M. et al.
Hau, C.H.
Tree seed predation on degraded hillsides in Hong Kong 99 (1997) 215
Hayes, J.P., *see* Barbour, R.J. et al.
Healey, J., *see* Hardwick, K. et al.
Heineman, A.M., H.J.O. Otieno, E.K. Mengich and B.A. Amadalo
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Heinsdorf, D., *see* Uebel, E. et al.
Herbert, D.A. and J.H. Fownes
Effects of leaf aggregation in a broad-leaf canopy on estimates of leaf area index by the gap-fraction method 97 (1997) 277
Heskjær, V.S., *see* Graae, B.J. et al.
Hessburg, P., *see* Camp, A. et al.
Hill, R.D., *see* Chen, R. et al.
Hodges, J.D.
Development and ecology of bottomland hardwood sites 90 (1997) 117
Hodgson, M.E., *see* Mast, J.N. et al.
Högberg, P., *see* Binkley, D. et al.
Hökkä, H.
Height–diameter curves with random intercepts and slopes for trees growing on drained peatlands 97 (1997) 63
Hökkä, H., *see* Ruha, M. et al.
Holdaway, M., *see* Leary, R.A. et al.
Honrubia, M., *see* Torres, P. et al.
Hornbeck, J.W., S.W. Bailey, D.C. Buso and J.B. Shanley
Streamwater chemistry and nutrient budgets for forested watersheds in New England: variability and management implications 93 (1997) 73
Hotanen, J.-P., *see* Uuttera, J. et al.
Hu, D., *see* Mallik, A.U. et al.
Huttel, C., *see* Loumeto, J.J. et al.
Hüttermann, A., *see* Ma, H.-C. et al.
Ibrahim, A.M., C.W. Fagg and S.A. Harris
Seed and seedling variation amongst provenances in *Faidherbia albida* 97 (1997) 197
Inderjit, and A.U. Mallik
Effect of phenolic compounds on selected soil properties 92 (1997) 11
Ingerslev, M.
Effects of liming and fertilization on growth, soil chemistry and soil water chemistry in a Norway spruce plantation on a nutrient-poor soil in Denmark 92 (1997) 55
Ingleby, K., O. Diagne, J.D. Deans, D.K. Lindley, M. Neyra and M. Ducousso
Distribution of roots, arbuscular mycorrhizal colonisation and spores around fast-growing tree species in Senegal 90 (1997) 19
Irvine, T., *see* Keenan, R. et al.
Iwatsubo, G., *see* Mitchell, M.J. et al.
Jensen, J.S., S. Harding and H. Roulund
Resistance to the green spruce aphid (*Elatobium abietinum* Walker) in progenies of Sitka spruce (*Picea sitchensis* (Bong) Carr.) 97 (1997) 207
Jensen, R., *see* Keenan, R. et al.

Kallarackal, J. and C.K. Somen
An ecophysiological evaluation of the suitability of *Eucalyptus grandis* for planting in the tropics 95 (1997) 53
Kamitani, T., *see* Yoshida, T. et al.
Kang, B.T.
Alley cropping—soil productivity and nutrient recycling 91 (1997) 75
Kangas, A.S.
On the prediction bias and variance in long-term growth projections 96 (1997) 207
Karjalainen, T., *see* Kellomäki, S. et al.
Keeland, B.D., W.H. Conner and R.R. Sharitz
A comparison of wetland tree growth response to hydrologic regime in Louisiana and South Carolina 90 (1997) 237

Keenan, R., D. Lamb, O. Woldring, T. Irvine and R. Jensen
Restoration of plant biodiversity beneath tropical tree plantations in Northern Australia 99 (1997) 117
Keenan, R.J., *see* Vanclay, J.K. et al.
Keenum, D., *see* Everett, R. et al.
Kellison, R., *see* Perison, D. et al.
Kellison, R.C. and M.J. Young
The bottomland hardwood forest of the southern United States 90 (1997) 101
Kellomäki, S. and K.-Y. Wang
Effects of long-term CO_2 and temperature elevation on crown nitrogen distribution and daily photosynthetic performance of Scots pine 99 (1997) 309
Kellomäki, S., T. Karjalainen and H. Väisänen
More timber from boreal forests under changing climate? 94 (1997) 195
Kellomäki, S., *see* Peltola, H. et al.
Kelsey, R.G., *see* Gerson, E.A. et al.
Kexi, M., *see* Nyström, K. et al.
Khanna, P.K.
Comparison of growth and nutrition of young monocultures and mixed stands of *Eucalyptus globulus* and *Acacia mearnsii* 94 (1997) 105
Kiefer, J.W. and M.E. Fenn
Using vector analysis to assess nitrogen status of ponderosa and Jeffrey pine along deposition gradients in forests of southern California 94 (1997) 47
Kim, D.Y. and J.A. Burger
Nitrogen transformations and soil processes in a wastewater-irrigated, mature Appalachian hardwood forest 90 (1997) 1
Kimmins, J.P., *see* Christanty, L. et al.
Kimmins, J.P., *see* Mailly, D. et al.
Kimmins, J.P., *see* Morris, D.M. et al.
King, J., J.-B. Moutsinga and G. Doufoulon
Conversion of anthropogenic savanna to production forest through fire-protection of the forest–savanna edge in Gabon, Central Africa 94 (1997) 233
Kiviste, A., *see* Elfving, B. et al.
Klinka, K., *see* Wang, G.G. et al.
Knoepp, J.D. and W.T. Swank
Long-term effects of commercial sawlog harvest on soil cation concentrations 93 (1997) 1
Knowe, S.A., G.R. Ahrens and D.S. DeBell
Comparison of diameter-distribution-prediction, stand-table-projection, and individual-tree-growth modeling approaches for young red alder plantations 98 (1997) 49
Knowles, O.H., *see* Parrotta, J.A. et al.
Knox, R.G., *see* Liu, C. et al.
Kochenderfer, J.N., *see* Adams, M.B. et al.
Kochenderfer, J.N., *see* Pan, C. et al.
Köhl, M. and G. Gertner
Geostatistics in evaluating forest damage surveys: considerations on methods for describing spatial distributions 95 (1997) 131
Kolka, R., *see* Leary, R.A. et al.
Korzukhin, M.D., *see* Ter-Mikaelian, M.T. et al.
Kosonen, M., A. Otsamo and J. Kuusipalo
Financial, economic and environmental profitability of reforestation of *Imperata* grasslands in Indonesia 99 (1997) 247
Kulhavy, D.L., *see* Ross, W.G. et al.
Kumar, P., *see* Palanisamy, K. et al.
Kushla, J.D. and W.J. Ripple
The role of terrain in a fire mosaic of a temperate coniferous forest 95 (1997) 97
Kuusipalo, J., S. Hadengganan, G. Ådjers and A.P.S. Sagala
Effect of gap liberation on the performance and growth of dipterocarp trees in a logged-over rainforest 92 (1997) 209
Kuusipalo, J., *see* Kosonen, M. et al.

Forest Ecology and Management

Cumulative Subject Index, Vols. 90–99

Abandoned field
Experimental determination of soil characteristics optimal for the growth of ten hardwoods planted on abandoned farmland 96 (1997) 49
Abies
Truffle production in old-growth and mature fir stands in northeastern California 96 (1997) 155
Aboveground biomass
Biomass equations for sixty-five North American tree species 97 (1997) 1
Aboveground biomass density
Aboveground biomass distribution of US eastern hardwood forests and the use of large trees as an indicator of forest development 96 (1997) 37
Acacia
Comparison of growth and nutrition of young monocultures and mixed stands of *Eucalyptus globulus* and *Acacia mearnsii* 94 (1997) 105
Understory vegetation in fast-growing tree plantations on savanna soils in Congo 99 (1997) 65
Acacia mearnsii
Survey and virulence of fungi occurring on diseased *Acacia mearnsii* in South Africa 99 (1997) 327
Acidic deposition
Reduced soil P availability in a Sitka spruce (*Picea sitchensis* (Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153
Acidification
Effects of liming and fertilization on growth, soil chemistry and soil water chemistry in a Norway spruce plantation on a nutrient-poor soil in Denmark 92 (1997) 55
Effects of low-dose liming and nitrogen fertilization on stemwood growth and needle properties of *Picea abies* and *Pinus sylvestris* 95 (1997) 261
Acidity
Does atmospheric deposition of nitrogen threaten Swedish forests? 92 (1997) 119
Acid-mist
Reduced soil P availability in a Sitka spruce (*Picea sitchensis* (Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153
Acorns
Vertebrate predation on Holm Oak, *Quercus ilex*, acorns in a fragmented habitat: effects on seedling recruitment 98 (1997) 181
Adoption of organizational innovation
New organizational strategy for managing the forests of southeast China. The share-holding integrated forestry tenure (SHIFT) system 91 (1997) 183
Advance growth
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Adventitious
In vitro induction of multiple buds in tissue culture of *Juniperus excelsa* 98 (1997) 115
Afforestation
Financial, economic and environmental profitability of reforestation of *Imperata* grasslands in Indonesia 99 (1997) 247
Native forest regeneration in pine and eucalypt plantations in Northern Province, South Africa 99 (1997) 101
Results of long-term K and Mg fertilizer experiments in afforestation 91 (1997) 47
Afrocarpus gracilior
Effects of ground preparation and microenvironment on germination and natural regeneration of *Juniperus procera* and *Afrocarpus gracilior* in Ethiopia 93 (1997) 215
Afromontane forest
Effects of ground preparation and microenvironment on germination and natural regeneration of *Juniperus procera* and *Afrocarpus gracilior* in Ethiopia 93 (1997) 215
Age variation
Age distribution patterns in open boreal Dahurican larch forests of Central Siberia 93 (1997) 205
Aggregation index
Analysis and modeling of spatial stand structures. Methodological considerations based on mixed beech–larch stands in Lower Saxony 97 (1997) 237
Agroforestry
Agroforestry practice and policy in the United States of America 91 (1997) 5
Influence of silvicultural treatments on growth of mature mesquite (*Prosopis glandulosa* var. *glandulosa*) nine years after initiation 94 (1997) 37
Poplar agroforestry in India 90 (1997) 13
Potentials and limitations of agroforestry for changing land-use in the tropics: experiences from Central America 91 (1997) 61
Silvicultural treatments for sapling mesquite (*Prosopis glandulosa* var. *glandulosa*) to optimize timber production and minimize seedling encroachment 96 (1997) 231

'Without bamboo, the land dies': nutrient cycling and biogeochemistry of a Javanese bamboo *talun–kebun* system 91 (1997) 155
Agroforestry policy
Agroforestry practice and policy in the United States of America 91 (1997) 5
Air pollution
Stream water and soil solution responses to 5 years of nitrogen and sulfur additions at the Fernow Experimental Forest, West Virginia 95 (1997) 79
Alder
Evaluation of Andean alder as a catalyst for the recovery of tropical cloud forests in Colombia 99 (1997) 163
Aleppo pine forests
Conditions determining natural regeneration after wildfires in the *Pinus halepensis* (Miller, 1768) forests of Kassandra Peninsula (North Greece) 92 (1997) 199
Allelopathy
Effect of phenolic compounds on selected soil properties 92 (1997) 11
Alley cropping
Agroforestry practice and policy in the United States of America 91 (1997) 5
Alley cropping—soil productivity and nutrient recycling 91 (1997) 75
Allometry
Effects of leaf aggregation in a broad-leaf canopy on estimates of leaf area index by the gap-fraction method 97 (1997) 277
Alnus
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Alnus rubra
Comparison of diameter-distribution-prediction, stand-table-projection, and individual-tree-growth modeling approaches for young red alder plantations 98 (1997) 49
Altitude
Seedling populations and regeneration of woody species in dry Afromontane forests of Ethiopia 98 (1997) 149
Amazon
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
Selection harvests in Amazonian rainforests: long-term impacts on soil properties 93 (1997) 153
Vine management for reduced-impact logging in eastern Amazonia 98 (1997) 105
Amazon forest
Wood density for estimating forest biomass in Brazilian Amazonia 90 (1997) 59
Amazonia
Population dynamics of five tree species in a monodominant Peltogyne forest and two other forest types on Maracá Island, Roraima, Brazil 94 (1997) 115
Ammonium nitrate
Effects of low-dose liming and nitrogen fertilization on stemwood growth and needle properties of *Picea abies* and *Pinus sylvestris* 95 (1997) 261
Amphibian
Amphibian responses to helicopter harvesting in forested floodplains of low order, blackwater streams 90 (1997) 225
Amphibians
Factors influencing amphibian and small mammal assemblages in central Appalachian forests 96 (1997) 65
Analytical approaches
Stand density management diagrams: Review of their development and utility in stand-level management planning 98 (1997) 251
Animal seed dispersal
The role of animal seed dispersal in accelerating native forest regeneration on degraded tropical lands 99 (1997) 223
Araucaria cunninghamii
Restoration of plant biodiversity beneath tropical tree plantations in Northern Australia 99 (1997) 117
Arboreal marsupials
Factors affecting the abundance of hollows in logs in jarrah forest of south-western Australia 95 (1997) 153
Arbuscular mycorrhizas
Distribution of roots, arbuscular mycorrhizal colonisation and spores around fast-growing tree species in Senegal 90 (1997) 19
Mycorrhizal status of some fungi fruiting beneath indigenous trees in Burkina Faso 98 (1997) 61
Arid lands
Influence of silvicultural treatments on growth of mature mesquite (*Prosopis glandulosa* var. *glandulosa*) nine years after initiation 94 (1997) 37
Aristida stricta Michx.
Long-term effects of dormant-season prescribed fire on plant community diversity, structure and productivity in a longleaf pine wiregrass ecosystem 96 (1997) 167
Aspen
Basing silviculture on natural ecosystem dynamics: an approach applied to the southern boreal mixedwood forest of Quebec 92 (1997) 235
Assisted natural regeneration
Understanding and assisting natural regeneration processes in degraded seasonal evergreen forests in northern Thailand 99 (1997) 203
Atmospheric deposition
Streamwater chemistry and nutrient budgets for forested watersheds in New England: variability and management implications 93 (1997) 73
Australian Red Cedar
Temporal and inter-tree variations of attack by *Hypsipyla robusta* moore (Lepidoptera: Pyralidae) in Australian Red Cedar (*Toona australis* (F. Muell.) Harmes) 96 (1997) 139
Within-tree distribution of attack by *Hypsipyla robusta* Moore (Lepidoptera: Pyralidae) in Australian Red Cedar (*Toona australis* (F. Muell.) Harmes) 96 (1997) 147
Autocorrelation
Stability of height positions in young naturally regenerated stands of Scots pine 97 (1997) 155
Bacteria
Nitrogen fixation in root-colonized large woody residue of Oregon coastal forests 92 (1997) 229
Bamboo seedlings
Effect of endomycorrhizae (VAM) on bamboo seedling growth and biomass productivity 98 (1997) 205

Basal area
Effectiveness of basal area for estimating canopy cover of ponderosa pine 95 (1997) 45
Growth curves for *Pinus elliottii*, *Pinus taeda* and *Pinus radiata* in two areas of the Calamuchita Valley (Córdoba, Argentina) 95 (1997) 173
Basal area growth models
Individual tree basal area growth models for young stands of Norway spruce in Sweden 97 (1997) 173
Basal medium
In vitro induction of multiple buds in tissue culture of *Juniperus excelsa* 98 (1997) 115
Bertalanffy-Richards model
Comparison of Schnute's and Bertalanffy-Richards' growth functions 96 (1997) 283
Betula
Seedling emergence of *Betula maximowicziana* following human disturbance and the role of buried viable seeds 93 (1997) 235
Betula papyrifera
Effects of scarification on seedbed coverage and natural regeneration after a group seed-tree cutting in a black spruce (*Picea mariana*) stand 94 (1997) 219
Betula pubescens
Height–diameter curves with random intercepts and slopes for trees growing on drained peatlands 97 (1997) 63
Biodiversity
Catalyzing native forest regeneration on degraded tropical lands 99 (1997) 1
Factors influencing amphibian and small mammal assemblages in central Appalachian forests 96 (1997) 65
Geographical information systems in long-term forest management and planning with special reference to preservation of biological diversity: a review 93 (1997) 121
Invasibility of tree plantations by native and non-indigenous plant species in Hawaii 99 (1997) 153
Restoration of plant biodiversity beneath tropical tree plantations in Northern Australia 99 (1997) 117
Silvicultural models to maintain and restore natural stand structures in Swedish boreal forests 94 (1997) 89
The effect of a *Eucalyptus camaldulensis* (Dehn) plantation on native woodland recovery on Ulumba Mountain, southern Malawi 99 (1997) 63
The effect of overstory composition on understory woody regeneration and species richness in 7-year-old plantations in Costa Rica 99 (1997) 43
The impact of broadcast burning and fire severity on species composition and abundance of surface vegetation in a jack pine (*Pinus banksiana*) clear-cut 94 (1997) 141
Biogeochemical cycle
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb). Franco) stands on the Beaujolais Mounts (France). 2. Quantitative approach 92 (1997) 167
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb.) Franco) stands on the Beaujolais Mounts (France). 1: Qualitative approach 91 (1997) 255
Biogeochemistry
Nitrogen saturation in Japanese forests: an evaluation 97 (1997) 39
The effects of timber harvest in a South Carolina blackwater bottomland 90 (1997) 171
'Without bamboo, the land dies': A conceptual model of the biogeochemical role of bamboo in an Indonesian agroforestry system 91 (1997) 83
Biogeography
Mangroves of China: a brief review 96 (1997) 241
Biological diversity
Landscape-level effects of forest management on faunal diversity in bottomland hardwoods 90 (1997) 141
Biomass
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
Predicted leaf area growth and foliage efficiency of loblolly pine plantations 95 (1997) 109
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
The effects of timber harvest in a South Carolina blackwater bottomland 90 (1997) 171
Variation in biomass and net primary productivity in short rotation high density central Himalayan poplar plantations 98 (1997) 167
Biomass accumulation ratio
Variation in biomass and net primary productivity in short rotation high density central Himalayan poplar plantations 98 (1997) 167
Biomass distribution
Aboveground biomass distribution of US eastern hardwood forests and the use of large trees as an indicator of forest development 96 (1997) 37
Biomass energy
Biomass energy in industrialised countries—a view of the future 91 (1997) 17
Bioremediation
Nitrogen transformations and soil processes in a wastewater-irrigated, mature Appalachian hardwood forest 90 (1997) 1
Birch sp.
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229
Birds
Environmental determinants of plant and bird diversity in ancient oak–hazel woodland in Sweden 91 (1997) 137
Black spruce
Does it pay to do silvicultural research on a slow growing species? 95 (1997) 141
Blackwater
The effects of timber harvest in a South Carolina blackwater bottomland 90 (1997) 171
Boreal forest
More timber from boreal forests under changing climate? 94 (1997) 195
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Boreal forest community
Identification and description of forested vegetation communities available to woodland caribou: relating wildlife habitat to forest cover data 93 (1997) 245

Boreal Sweden
Silvicultural models to maintain and restore natural stand structures in Swedish boreal forests 94 (1997) 89
Bottomland hardwood
Improved harvesting systems for wet sites 90 (1997) 155
Bottomland hardwood forest
Landscape-level effects of forest management on faunal diversity in bottomland hardwoods 90 (1997) 141
The bottomland hardwood forest of the southern United States 90 (1997) 101
Bottomland hardwoods
The effects of timber harvest in a South Carolina blackwater bottomland 90 (1997) 171
Branch angle
Crown profile models based on branch attributes in coastal Douglas-fir 96 (1997) 77
Branch biomass
Biomass equations for sixty-five North American tree species 97 (1997) 1
Branch diameter
Crown profile models based on branch attributes in coastal Douglas-fir 96 (1997) 77
Branch length
Crown profile models based on branch attributes in coastal Douglas-fir 96 (1997) 77
Branch samples
Forest roadside sampling of larvae and adults of the western hemlock looper, *Lambdina fiscellaria lugubrosa* 93 (1997) 45
Brazil
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
Development of floristic diversity in 10-year-old restoration forests on a bauxite mined site in Amazonia 99 (1997) 21
Breaking stress
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229
Broadcast burning
The impact of broadcast burning and fire severity on species composition and abundance of surface vegetation in a jack pine (*Pinus banksiana*) clear-cut 94 (1997) 141
Buffalo National River
Gradient analysis in a riparian landscape: contrasts among forest layers 96 (1997) 13
Caboclo
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
Calcite
Effects of low-dose liming and nitrogen fertilization on stemwood growth and needle properties of *Picea abies* and *Pinus sylvestris* 95 (1997) 261
Calcium
Stream water and soil solution responses to 5 years of nitrogen and sulfur additions at the Fernow Experimental Forest, West Virginia 95 (1997) 79
Calliandra
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Callistemon
Early growth of six native Australian tree species in windbreaks and their effect on potato growth in tropical northern Australia 95 (1997) 21
Calorific value
Energy and nutrient flow through the storage and consumption of upland phytomass fuel 93 (1997) 63
Ca + Mg:Al ratio
Reduced soil P availability in a Sitka spruce (*Picea sitchensis* (Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153
Canonical correspondence analysis
Identification and description of forested vegetation communities available to woodland caribou: relating wildlife habitat to forest cover data 93 (1997) 245
Canonical variate analysis
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Canopy
Modeling canopy structure and heterogeneity across scales: From crowns to canopy 96 (1997) 217
Canopy cover
Ectomycorrhizal colonization of *Quercus rubra* seedlings in response to vegetation removals in oak and pine stands 93 (1997) 91
Effectiveness of basal area for estimating canopy cover of ponderosa pine 95 (1997) 45
Canopy openness
Forest damage caused by selection logging of mahogany (*Swietenia macrophylla*) in northern Belize 92 (1997) 87
Carbon balance
A generalised model of forest productivity using simplified concepts of radiation-use efficiency, carbon balance and partitioning 95 (1997) 209
Tree stand biomass and carbon content in an age sequence of drained pine mires in southern Finland 93 (1997) 161
Carbon cycle
Aboveground biomass distribution of US eastern hardwood forests and the use of large trees as an indicator of forest development 96 (1997) 37
Carbon dioxide
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
Carbon sequestration
Biomass energy in industrialised countries—a view of the future 91 (1997) 17
Carbon stocks
Wood density for estimating forest biomass in Brazilian Amazonia 90 (1997) 59

Caribou
Identification and description of forested vegetation communities available to woodland caribou: relating wildlife habitat to forest cover data 93 (1997) 245
Cartesian spectrum
Spectral techniques in spatial analysis 94 (1997) 165
Cassia
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Cation depletion
Streamwater chemistry and nutrient budgets for forested watersheds in New England: variability and management implications 93 (1997) 73
CCA
Gradient analysis in a riparian landscape: contrasts among forest layers 96 (1997) 13
Central America
Potentials and limitations of agroforestry for changing land-use in the tropics: experiences from Central America 91 (1997) 61
Cerrado
Dynamics of the natural regeneration in the Gama gallery forest in central Brazil 91 (1997) 235
Change in phytofuel
Energy and nutrient flow through the storage and consumption of upland phytomass fuel 93 (1997) 63
Changing climate
More timber from boreal forests under changing climate? 94 (1997) 195
China
Mangroves of China: a brief review 96 (1997) 241
New organizational strategy for managing the forests of southeast China. The share-holding integrated forestry tenure (SHIFT) system 91 (1997) 183
Chinese tallow tree
Succession dynamics in a maritime forest following Hurricane Hugo and fuel reduction burns 95 (1997) 275
Chlorophyll
Changes in the canopy and growth of *Pinus radiata* in response to nitrogen supply 93 (1997) 137
Chlorophyll fluorescence
Pre-planting physiological stress assessment to forecast field growth performance of jack pine and black spruce 92 (1997) 107
Chronological review
Stand density management diagrams: Review of their development and utility in stand-level management planning 98 (1997) 251
Chronosequence
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb). Franco) stands on the Beaujolais Mounts (France). 2. Quantitative approach 92 (1997) 167
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb.) Franco) stands on the Beaujolais Mounts (France). 1: Qualitative approach 91 (1997) 255
Cleaning practices
Long-term species and structural changes after cleaning young even-aged northern hardwoods in New Hampshire, USA 95 (1997) 11
Clearcut
Effects on the flora in Norway spruce forests following clearcutting and shelterwood cutting 90 (1997) 29
Short-term changes in bird communities in response to silvicultural prescriptions 96 (1997) 27
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Clearcut, forested floodplains
Amphibian responses to helicopter harvesting in forested floodplains of low order, blackwater streams 90 (1997) 225
Clearcutting
Initial responses of woody vegetation, water quality, and soils to harvesting intensity in a Texas bottomland hardwood ecosystem 90 (1997) 201
Soricid response to forest stand age in southern Appalachian cove hardwood communities 91 (1997) 175
Clearing
Clearing of vegetation in Mediterranean garrigue: response after a wildfire 93 (1997) 227
Climate change
Conversion of anthropogenic savanna to production forest through fire-protection of the forest–savanna edge in Gabon, Central Africa 94 (1997) 233
Climate change impact analysis
Improving the simulation of stand structure in a forest gap model 95 (1997) 183
Climber cutting
Vine management for reduced-impact logging in eastern Amazonia 98 (1997) 105
Cloud forest
Evaluation of Andean alder as a catalyst for the recovery of tropical cloud forests in Colombia 99 (1997) 163
Clustering
Spectral techniques in spatial analysis 94 (1997) 165
Coarse woody debris
Stand structure and successional trends in virgin boreal forest reserves in Sweden 98 (1997) 17
Coarse woody residues
Nitrogen fixation in root-colonized large woody residue of Oregon coastal forests 92 (1997) 229
Coastal vegetation
Succession dynamics in a maritime forest following Hurricane Hugo and fuel reduction burns 95 (1997) 275
CO_2 evolution
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Colombia
Evaluation of Andean alder as a catalyst for the recovery of tropical cloud forests in Colombia 99 (1997) 163
Colorado Front Range
Tree invasion within a pine/grassland ecotone: an approach with historic aerial photography and GIS modeling 93 (1997) 181
Commercial volume
An experimental comparison of different harvesting intensities with reduced-impact and conventional logging in East Kalimantan, Indonesia 94 (1997) 209

Community ecology
Factors influencing amphibian and small mammal assemblages in central Appalachian forests 96 (1997) 65
Community forestry management
New organizational strategy for managing the forests of southeast China. The share-holding integrated forestry tenure (SHIFT) system 91 (1997) 183
Compatible equations
Comparison of diameter-distribution-prediction, stand-table-projection, and individual-tree-growth modeling approaches for young red alder plantations 98 (1997) 49
Competing plants
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Competition
Dimensional relationships of open-grown trees in Austria 96 (1997) 197
Recovery of the rain forest tree *Vochysia ferruginea* over 5 years following Hurricane Joan in Nicaragua: a preliminary population projection matrix 91 (1997) 195
The role of hair-cap mosses (*Polytrichum* spp.) in natural regeneration of white spruce (*Picea glauca* (Moench) Voss) 92 (1997) 19
Competition effects
Improving the simulation of stand structure in a forest gap model 95 (1997) 183
Competition index
Individual tree basal area growth models for young stands of Norway spruce in Sweden 97 (1997) 173
Competition thresholds
Growth responses of young Douglas-fir and tanoak 11 years after various levels of hardwood removal and understory suppression in southwestern Oregon, USA 96 (1997) 1
Composition
Seedling populations and regeneration of woody species in dry Afromontane forests of Ethiopia 98 (1997) 149
Conservation
Mangroves of China: a brief review 96 (1997) 241
Conversion management
Secondary forest regeneration beneath pine (*Pinus kesiya*) plantations in the northern Thai highlands: a chronosequence study 99 (1997) 171
Corylus
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Cost benefit analysis
Does it pay to do silvicultural research on a slow growing species? 95 (1997) 141
Cotyledon
In vitro induction of multiple buds in tissue culture of *Juniperus excelsa* 98 (1997) 115
Cove hardwoods
Soricid response to forest stand age in southern Appalachian cove hardwood communities 91 (1997) 175
Critical snow load
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229
Critical windspeed
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229
Crop
Early growth of six native Australian tree species in windbreaks and their effect on potato growth in tropical northern Australia 95 (1997) 21
Crown
Modeling canopy structure and heterogeneity across scales: From crowns to canopy 96 (1997) 217
Crown condition
The stand dynamics of a mixed coppice forest of shade-tolerant and intermediate species 95 (1997) 35
Crown photosynthesis
Effects of long-term CO_2 and temperature elevation on crown nitrogen distribution and daily photosynthetic performance of Scots pine 99 (1997) 309
Crown radius
Crown profile models based on branch attributes in coastal Douglas-fir 96 (1997) 77
Crown width
Crown profile models based on branch attributes in coastal Douglas-fir 96 (1997) 77
Cultivation
A model of the growth of juvenile radiata pine in the Central North Island of New Zealand: links with older models and rotation–length analyses of the effects of site preparation 97 (1997) 187
Cyclic forest dynamics
Age and size distribution in a long-term forest dynamics 92 (1997) 39
DCA
Gradient analysis in a riparian landscape: contrasts among forest layers 96 (1997) 13
Dead wood
Variation in the amount of dead wood in the woodlands of the Lower Wye Valley, UK in relation to the intensity of management 98 (1997) 229
Decay rates
Litter decomposition in semideciduous forest and *Eucalyptus* spp. crop in Brazil: a comparison 94 (1997) 31
Deciduous oak
Age and size distribution in a long-term forest dynamics 92 (1997) 39
Decomposition
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Deferment cut
Short-term changes in bird communities in response to silvicultural prescriptions 96 (1997) 27
Deforestation impacts
Wood density for estimating forest biomass in Brazilian Amazonia 90 (1997) 59
Degraded ecosystem
Development of species diversity in the restoration process of establishing a tropical man-made forest ecosystem in China 99 (1997) 185

Degraded hillsides
Tree seed predation on degraded hillsides in Hong Kong 99 (1997) 215
Degraded lands
The apparent paradox of reestablishing species richness on degraded lands with tree monocultures 99 (1997) 9
Demography
Dynamics of the natural regeneration in the Gama gallery forest in central Brazil 91 (1997) 235
Density
Seedling populations and regeneration of woody species in dry Afromontane forests of Ethiopia 98 (1997) 149
Desertification
Silvicultural treatments for sapling mesquite (*Prosopis glandulosa* var. *glandulosa*) to optimize timber production and minimize seedling encroachment 96 (1997) 231
Detrended correspondence analysis
A comparison of understorey vegetation between untouched and managed deciduous forest in Denmark 96 (1997) 111
Deviation method
Construction of site index equations for *Pinus sylvestris* L. using permanent plot data in Sweden 98 (1997) 125
Diameter distribution
The structure of forest stands in virgin and managed peatlands: a comparison between Finnish and Russian Karelia 96 (1997) 125
Diameter distribution models
Predicted leaf area growth and foliage efficiency of loblolly pine plantations 95 (1997) 109
Diameter growth
White spruce foliar nutrient concentrations in relation to tree growth and soil nutrient amounts 98 (1997) 89
Difference equation method
Construction of site index equations for *Pinus sylvestris* L. using permanent plot data in Sweden 98 (1997) 125
Difference equations
Augmenting empirical stand projection equations with edaphic and climatic variables 98 (1997) 267
Differentiation
Stability of height positions in young naturally regenerated stands of Scots pine 97 (1997) 155
Digital elevation model (DEM)
The role of terrain in a fire mosaic of a temperate coniferous forest 95 (1997) 97
Dipterocarpaceae
Effect of gap liberation on the performance and growth of dipterocarp trees in a logged-over rainforest 92 (1997) 209
Natural regeneration potential and early development of *Shorea robusta* Gaertn.f. forest after regeneration felling in the Bhabar-Terai zone in Nepal 92 (1997) 243
Disc trenching
Influence of mechanical site preparation on decomposition and nutrient dynamics of Norway spruce (*Picea abies* (L.) Karst.) needle litter and slash needles 96 (1997) 101
Disease survey
Survey and virulence of fungi occurring on diseased *Acacia mearnsii* in South Africa 99 (1997) 327
Dispersal
The effects of ecological rehabilitation on vegetation recruitment: some observations from the Wet Tropics of North Queensland 99 (1997) 133
Distal end
Effect of position, size of cuttings and environmental factors on adventitious rooting in neem (*Azadirachta indica* A. Juss) 98 (1997) 277
Distance-independent
Comparison of diameter-distribution-prediction, stand-table-projection, and individual-tree-growth modeling approaches for young red alder plantations 98 (1997) 49
Disturbance
A gap-based approach for development of silvicultural systems to address ecosystem management objectives 99 (1997) 337
Aboveground biomass distribution of US eastern hardwood forests and the use of large trees as an indicator of forest development 96 (1997) 37
Basing silviculture on natural ecosystem dynamics: an approach applied to the southern boreal mixedwood forest of Quebec 92 (1997) 235
Forest damage caused by selection logging of mahogany (*Swietenia macrophylla*) in northern Belize 92 (1997) 87
Hurricane disturbance and the regeneration of *Lysiloma latisiliquum* (Fabaceae): a tropical tree in south Florida 92 (1997) 97
Predicting late-successional fire refugia pre-dating European settlement in the Wenatchee Mountains 95 (1997) 63
Regional patterns of local diversity of trees: associations with anthropogenic disturbance 93 (1997) 33
Storms drive successional dynamics in natural forests: a case study in Fontainebleau forest (France) 98 (1997) 1
Succession dynamics in a maritime forest following Hurricane Hugo and fuel reduction burns 95 (1997) 275
Successional changes in plant species diversity and composition after clearcutting a Southern Appalachian watershed 92 (1997) 67
Tornado and fire effects on tree species composition in a savanna in the Big Thicket National Preserve, southeast Texas, USA 91 (1997) 279
Diurnal leaf water potential
Leaf water relations in six provenances of *Eucalyptus microtheca*: a greenhouse experiment 92 (1997) 1
Diversity
Effects on the flora in Norway spruce forests following clearcutting and shelterwood cutting 90 (1997) 29
Secondary forest regeneration beneath pine (*Pinus kesiya*) plantations in the northern Thai highlands: a chronosequence study 99 (1997) 171
The effect of overstory composition on understory woody regeneration and species richness in 7-year-old plantations in Costa Rica 99 (1997) 43
Dolomite
Effects of low-dose liming and nitrogen fertilization on stemwood growth and needle properties of *Picea abies* and *Pinus sylvestris* 95 (1997) 261

Dothistroma
Growth of *Pinus muricata* provenances in the highlands of Ecuador 99 (1997) 291
Douglas-fir
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb). Franco) stands on the Beaujolais Mounts (France). 2. Quantitative approach 92 (1997) 167
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb.) Franco) stands on the Beaujolais Mounts (France). 1: Qualitative approach 91 (1997) 255
Drainage
Tree stand biomass and carbon content in an age sequence of drained pine mires in southern Finland 93 (1997) 161
Drought
Growth stimulation of young oak plantations inoculated with the ectomycorrhizal fungus *Paxillus involutus* with special reference to summer drought 98 (1997) 221
Dry tropical forest
Composition, structure and management potential of secondary dry tropical vegetation in two abandoned henequen plantations of Yucatan, Mexico 94 (1997) 79
Composition, structure, and management potential of secondary dry tropical vegetation in two abandoned henequen plantations of Yucatan, Mexico 96 (1997) 273
Dry weight
Biomass equations for sixty-five North American tree species 97 (1997) 1
Dynamics
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb). Franco) stands on the Beaujolais Mounts (France). 2. Quantitative approach 92 (1997) 167
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb.) Franco) stands on the Beaujolais Mounts (France). 1: Qualitative approach 91 (1997) 255
East Kalimantan
An experimental comparison of different harvesting intensities with reduced-impact and conventional logging in East Kalimantan, Indonesia 94 (1997) 209
Ecological certification
Certified wood markets in the US: implications for tropical deforestation 92 (1997) 221
Ecological restoration
Human ecological questions for tropical restoration: experiences from planting native upland trees and mangroves in the Philippines 99 (1997) 275
Economic incentive
The influence of the form of tenure on reforestation in British Columbia 98 (1997) 239
Economics
Financial, economic and environmental profitability of reforestation of *Imperata* grasslands in Indonesia 99 (1997) 247
Ecophysiology
An ecophysiological evaluation of the suitability of *Eucalyptus grandis* for planting in the tropics 95 (1997) 53
Ecosystem function
A gap-based approach for development of silvicultural systems to address ecosystem management objectives 99 (1997) 337
Ecosystem-level modelling
The use of soil organic matter as a criterion of the relative sustainability of forest management alternatives: a modelling approach using FORECAST 94 (1997) 61
Ecosystem management
Model for multi-stand management based on structural attributes of individual stands 96 (1997) 261
Simulated stand characteristics and wood product yields from Douglas-fir plantations managed for ecosystem objectives 91 (1997) 205
Ecosystem rehabilitation
Restoration of plant biodiversity beneath tropical tree plantations in Northern Australia 99 (1997) 117
Ectendomycorrhizas
Changes and effects of a natural fire on ectomycorrhizal inoculum potential of soil in a *Pinus halepensis* forest 96 (1997) 189
Ectomycorrhiza
Growth stimulation of young oak plantations inoculated with the ectomycorrhizal fungus *Paxillus involutus* with special reference to summer drought 98 (1997) 221
Ectomycorrhizae
Ectomycorrhizal colonization of *Quercus rubra* seedlings in response to vegetation removals in oak and pine stands 93 (1997) 91
Ectomycorrhizal fungi
Mycorrhizal status of some fungi fruiting beneath indigenous trees in Burkina Faso 98 (1997) 61
Ectomycorrhizal synthesis
Mycorrhizal status of some fungi fruiting beneath indigenous trees in Burkina Faso 98 (1997) 61
Ectomycorrhizas
Changes and effects of a natural fire on ectomycorrhizal inoculum potential of soil in a *Pinus halepensis* forest 96 (1997) 189
Ecuador
Growth of *Pinus muricata* provenances in the highlands of Ecuador 99 (1997) 291
Edge effect
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Stand conditions and tree characteristics affect quality of longleaf pine for red-cockaded woodpecker cavity trees 91 (1997) 145
Elatobium abietinum
Resistance to the green spruce aphid (*Elatobium abietinum* Walker) in progenies of Sitka spruce (*Picea sitchensis* (Bong) Carr.) 97 (1997) 207
Elevated CO_2 and temperature
Effects of long-term CO_2 and temperature elevation on crown nitrogen distribution and daily photosynthetic performance of Scots pine 99 (1997) 309
Ellenberg indicator values
Effects on the flora in Norway spruce forests following clearcutting and shelterwood cutting 90 (1997) 29

Embryo
In vitro induction of multiple buds in tissue culture of *Juniperus excelsa* 98 (1997) 115
Empirical model
Variation in shoot water status of *Picea abies* (L.) Karst. trees with different life histories 97 (1997) 53
Endangered species
Stand conditions and tree characteristics affect quality of longleaf pine for red-cockaded woodpecker cavity trees 91 (1997) 145
Enrichment planting
Enrichment planting in overexploited subtropical forests of the Paranaense region of Misiones, Argentina 99 (1997) 237
Environment
Biomass energy in industrialised countries—a view of the future 91 (1997) 17
Equatorial rainforest
Conversion of anthropogenic savanna to production forest through fire-protection of the forest–savanna edge in Gabon, Central Africa 94 (1997) 233
Errors in predictors
On the prediction bias and variance in long-term growth projections 96 (1997) 207
Establishment
Effects of ground preparation and microenvironment on germination and natural regeneration of *Juniperus procera* and *Afrocarpus gracilior* in Ethiopia 93 (1997) 215
Eucalypts
The response in water yield to the thinning of *Pinus radiata*, *Pinus patula* and *Eucalyptus grandis* plantations 99 (1997) 295
Eucalyptus
Early growth of six native Australian tree species in windbreaks and their effect on potato growth in tropical northern Australia 95 (1997) 21
Integrated forest products from former sugarcane plantations in Hawaii 92 (1997) 29
Understory vegetation in fast-growing tree plantations on savanna soils in Congo 99 (1997) 65
Eucalyptus
Comparison of growth and nutrition of young monocultures and mixed stands of *Eucalyptus globulus* and *Acacia mearnsii* 94 (1997) 105
Native forest regeneration in pine and eucalypt plantations in Northern Province, South Africa 99 (1997) 101
Eucalyptus camaldulensis
The effect of a *Eucalyptus camaldulensis* (Dehn) plantation on native woodland recovery on Ulumba Mountain, southern Malawi 99 (1997) 63
Eucalyptus forest
Floristic and structural habitat preferences of yellow-bellied gliders (*Petaurus australis*) and selective logging impacts in southeast Queensland, Australia 98 (1997) 281
Eucalyptus grandis
An ecophysiological evaluation of the suitability of *Eucalyptus grandis* for planting in the tropics 95 (1997) 53
Eucalyptus marginata
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Eucalyptus microtheca
Leaf water relations in six provenances of *Eucalyptus microtheca*: a greenhouse experiment 92 (1997) 1
Eucalyptus saligna
Invasibility of tree plantations by native and non-indigenous plant species in Hawaii 99 (1997) 153
European beech
Storms drive successional dynamics in natural forests: a case study in Fontainebleau forest (France) 98 (1997) 1
Even-aged regeneration
Silvicultural systems for southern bottomland hardwood forests 90 (1997) 127
Evergreen forest
Native forest regeneration in pine and eucalypt plantations in Northern Province, South Africa 99 (1997) 101
Explants
In vitro induction of multiple buds in tissue culture of *Juniperus excelsa* 98 (1997) 115
Extension
Potentials and limitations of agroforestry for changing land-use in the tropics: experiences from Central America 91 (1997) 61
Fagus crenata
The stand dynamics of a mixed coppice forest of shade-tolerant and intermediate species 95 (1997) 35
Fagus sylvatica L.
Natural regeneration of beech (*Fagus sylvatica* L.) with respect to canopy density, soil moisture and soil carbon content 97 (1997) 95
Faidherbia albida
Seed and seedling variation amongst provenances in *Faidherbia albida* 97 (1997) 197
Fallen trees
Factors affecting the abundance of hollows in logs in jarrah forest of south-western Australia 95 (1997) 153
Fallow
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Fallow period
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
Farm forestry
Farm forestry: an alternative to government-driven reforestation in the Philippines 99 (1997) 261
Feeding sites
Within-tree distribution of attack by *Hypsipyla robusta* Moore (Lepidoptera: Pyralidae) in Australian Red Cedar (*Toona australis* (F. Muell.) Harmes) 96 (1997) 147
Fertilisation
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
Fertilization
Effects of liming and fertilization on growth, soil chemistry and soil water chemistry in a Norway spruce plantation on a nutrient-poor soil in Denmark 92 (1997) 55
Fertilizer response
Using vector analysis to assess nitrogen status of ponderosa

and Jeffrey pine along deposition gradients in forests of southern California 94 (1997) 47
Fine roots
Reaction of root systems of grand fir (*Abies grandis* Lindl.) and Norway spruce (*Picea abies* Karst.) to seasonal waterlogging 93 (1997) 9
Finland
Acidification of forest top soils in 60 years to the southwest of Helsinki 94 (1997) 187
Fire
Changes and effects of a natural fire on ectomycorrhizal inoculum potential of soil in a *Pinus halepensis* forest 96 (1997) 189
Clearing of vegetation in Mediterranean garrigue: response after a wildfire 93 (1997) 227
Fire ecology
Conversion of anthropogenic savanna to production forest through fire-protection of the forest–savanna edge in Gabon, Central Africa 94 (1997) 233
The impact of broadcast burning and fire severity on species composition and abundance of surface vegetation in a jack pine (*Pinus banksiana*) clear-cut 94 (1997) 141
The role of terrain in a fire mosaic of a temperate coniferous forest 95 (1997) 97
Fire–insect interactions
Attraction and direct mortality of pandora moths, *Coloradia pandora* (Lepidoptera: Saturniidae), by nocturnal fire 98 (1997) 71
Fire regimes
Predicting late-successional fire refugia pre-dating European settlement in the Wenatchee Mountains 95 (1997) 63
Fire severity
The impact of broadcast burning and fire severity on species composition and abundance of surface vegetation in a jack pine (*Pinus banksiana*) clear-cut 94 (1997) 141
Flindersia brayleyana
Invasibility of tree plantations by native and non-indigenous plant species in Hawaii 99 (1997) 153
Restoration of plant biodiversity beneath tropical tree plantations in Northern Australia 99 (1997) 117
Flooding
A comparison of wetland tree growth response to hydrologic regime in Louisiana and South Carolina 90 (1997) 237
Floodplain geology
Development and ecology of bottomland hardwood sites 90 (1997) 117
Flora
Effects on the flora in Norway spruce forests following clearcutting and shelterwood cutting 90 (1997) 29
Floristic composition
Understory vegetation in fast-growing tree plantations on savanna soils in Congo 99 (1997) 65
Floristic diversity
Rehabilitation and development of forest on degraded hills of Hong Kong 99 (1997) 197
Foliage biomass
Biomass equations for sixty-five North American tree species 97 (1997) 1
Foliage dynamics
Predicted leaf area growth and foliage efficiency of loblolly pine plantations 95 (1997) 109
Foliage nitrogen
Effects of long-term CO_2 and temperature elevation on crown nitrogen distribution and daily photosynthetic performance of Scots pine 99 (1997) 309
Foliar efficiency
Changes in the canopy and growth of *Pinus radiata* in response to nitrogen supply 93 (1997) 137
Foliar nutrient diagnosis
White spruce foliar nutrient concentrations in relation to tree growth and soil nutrient amounts 98 (1997) 89
FORECAST
The use of soil organic matter as a criterion of the relative sustainability of forest management alternatives: a modelling approach using FORECAST 94 (1997) 61
Forest development
Age and size distribution in a long-term forest dynamics 92 (1997) 39
Forest disturbance
Ectomycorrhizal colonization of *Quercus rubra* seedlings in response to vegetation removals in oak and pine stands 93 (1997) 91
Nitrogen fixation in root-colonized large woody residue of Oregon coastal forests 92 (1997) 229
Structure of northern spotted owl nest stands and their historical conditions on the eastern slope of the Pacific Northwest Cascades, USA 94 (1997) 1
Forest economics
Integrated forest products from former sugarcane plantations in Hawaii 92 (1997) 29
Forested wetlands
Landscape-level effects of forest management on faunal diversity in bottomland hardwoods 90 (1997) 141
Recovery status of a tupelo–cypress wetland seven years after disturbance: silvicultural implications 90 (1997) 161
Forest establishment
A model of the growth of juvenile radiata pine in the Central North Island of New Zealand: links with older models and rotation–length analyses of the effects of site preparation 97 (1997) 187
Forest farming
Agroforestry practice and policy in the United States of America 91 (1997) 5
Forest fire
Stand structure and successional trends in virgin boreal forest reserves in Sweden 98 (1997) 17
Forest floor mass
Variation in biomass and net primary productivity in short rotation high density central Himalayan poplar plantations 98 (1997) 167
Forest fragmentation
Vertebrate predation on Holm Oak, *Quercus ilex*, acorns in a fragmented habitat: effects on seedling recruitment 98 (1997) 181

Forest gap model
Improving the simulation of stand structure in a forest gap model 95 (1997) 183
Forest growth models
On the prediction bias and variance in long-term growth projections 96 (1997) 207
Forest harvest
Streamwater chemistry and nutrient budgets for forested watersheds in New England: variability and management implications 93 (1997) 73
Forest health
Nitrogen transformations and soil processes in a wastewater-irrigated, mature Appalachian hardwood forest 90 (1997) 1
Forest health monitoring
Geostatistics in evaluating forest damage surveys: considerations on methods for describing spatial distributions 95 (1997) 131
Forest inventory
A model describing natural regeneration recruitment of Norway spruce (*Picea abies* (L.) Karst.) in Austria 97 (1997) 107
Development and testing of regeneration imputation models for forests in Minnesota 94 (1997) 129
Identification and description of forested vegetation communities available to woodland caribou: relating wildlife habitat to forest cover data 93 (1997) 245
Forest management
Canopy removal and residual stand damage during controlled selective logging in lowland swamp forest of northeast Costa Rica 95 (1997) 117
Factors influencing amphibian and small mammal assemblages in central Appalachian forests 96 (1997) 65
Floristic and structural habitat preferences of yellow-bellied gliders (*Petaurus australis*) and selective logging impacts in southeast Queensland, Australia 98 (1997) 281
Geographical information systems in long-term forest management and planning with special reference to preservation of biological diversity: a review 93 (1997) 121
Landscape-level effects of forest management on faunal diversity in bottomland hardwoods 90 (1997) 141
Long-term effects of commercial sawlog harvest on soil cation concentrations 93 (1997) 1
More timber from boreal forests under changing climate? 94 (1997) 195
Variation in the amount of dead wood in the woodlands of the Lower Wye Valley, UK in relation to the intensity of management 98 (1997) 229
Forest model
A generalised model of forest productivity using simplified concepts of radiation-use efficiency, carbon balance and partitioning 95 (1997) 209
Forest policy
Sustainable development of non-timber forest products: implication for forest management in India 94 (1997) 15
Forest practices
The influence of the form of tenure on reforestation in British Columbia 98 (1997) 239
Forest production
Effects of low-dose liming and nitrogen fertilization on stemwood growth and needle properties of *Picea abies* and *Pinus sylvestris* 95 (1997) 261
Forest products
Certified wood markets in the US: implications for tropical deforestation 92 (1997) 221
Forest products marketing
Sustainable development of non-timber forest products: implication for forest management in India 94 (1997) 15
Forest recovery
Evaluation of Andean alder as a catalyst for the recovery of tropical cloud forests in Colombia 99 (1997) 163
Forest regeneration
The role of hair-cap mosses (*Polytrichum* spp.) in natural regeneration of white spruce (*Picea glauca* (Moench) Voss) 92 (1997) 19
Tree seed predation on degraded hillsides in Hong Kong 99 (1997) 215
Forest regulation
A quantitative approach to cork oak forest management 97 (1997) 223
Forest rehabilitation
Rehabilitation and development of forest on degraded hills of Hong Kong 99 (1997) 197
Forest restoration
Catalyzing native forest regeneration on degraded tropical lands 99 (1997) 1
Development of floristic diversity in 10-year-old restoration forests on a bauxite mined site in Amazonia 99 (1997) 21
The role of animal seed dispersal in accelerating native forest regeneration on degraded tropical lands 99 (1997) 223
Understanding and assisting natural regeneration processes in degraded seasonal evergreen forests in northern Thailand 99 (1997) 203
Forestry
Vegetation development of boreal riparian plant communities after flooding, fire, and logging, Peace River, Canada 93 (1997) 101
Forestry tenures
New organizational strategy for managing the forests of southeast China. The share-holding integrated forestry tenure (SHIFT) system 91 (1997) 183
Forests
Does atmospheric deposition of nitrogen threaten Swedish forests? 92 (1997) 119
Forest soil
Acidification of forest top soils in 60 years to the southwest of Helsinki 94 (1997) 187
Forest soils
Does atmospheric deposition of nitrogen threaten Swedish forests? 92 (1997) 119
Forest structure
Floristic and structural habitat preferences of yellow-bellied gliders (*Petaurus australis*) and selective logging impacts in southeast Queensland, Australia 98 (1997) 281

Floristic and structural patterns along a chronosequence of secondary forest succession in Argentinean subtropical montane forests 95 (1997) 161
Forest succession and regeneration
Storms drive successional dynamics in natural forests: a case study in Fontainebleau forest (France) 98 (1997) 1
Forest survival
The role of terrain in a fire mosaic of a temperate coniferous forest 95 (1997) 97
Forest sustainability
The use of soil organic matter as a criterion of the relative sustainability of forest management alternatives: a modelling approach using FORECAST 94 (1997) 61
Forest thinning
Atmospheric deposition and impact of forest thinning on the throughfall of mountain forest ecosystems in the Bavarian Alps 95 (1997) 243
Forest vegetation management
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Fossil fuel substitution
Biomass energy in industrialised countries—a view of the future 91 (1997) 17
Fractal dimension
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Fractal models
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Fractals
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Fragmentation
Short-term changes in bird communities in response to silvicultural prescriptions 96 (1997) 27
Fragmentation of natural forest formations
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Fraxinus uhdei
Invasibility of tree plantations by native and non-indigenous plant species in Hawaii 99 (1997) 153
Frogs
Factors influencing amphibian and small mammal assemblages in central Appalachian forests 96 (1997) 65
Frugivory
The effects of ecological rehabilitation on vegetation recruitment: some observations from the Wet Tropics of North Queensland 99 (1997) 133
Fruit traits
Fruit, seed and seedling variation in *Uapaca kirkiana* from natural populations in Malawi 98 (1997) 209
Fuelwood
Influence of silvicultural treatments on growth of mature mesquite (*Prosopis glandulosa* var. *glandulosa*) nine years after initiation 94 (1997) 37
Function
The effects of timber harvest in a South Carolina blackwater bottomland 90 (1997) 171
Functions
Effects of silvicultural activity on ecological processes in floodplain forests of the southern United States: a review of existing reports 90 (1997) 93
Fungi
Nitrogen fixation in root-colonized large woody residue of Oregon coastal forests 92 (1997) 229
Gap
Seedling populations and regeneration of woody species in dry Afromontane forests of Ethiopia 98 (1997) 149
Gap dynamics
A gap-based approach for development of silvicultural systems to address ecosystem management objectives 99 (1997) 337
Gaps
Canopy removal and residual stand damage during controlled selective logging in lowland swamp forest of northeast Costa Rica 95 (1997) 117
Gap stimulation
Effect of gap liberation on the performance and growth of dipterocarp trees in a logged-over rainforest 92 (1997) 209
Genetic variation
Resistance to the green spruce aphid (*Elatobium abietinum* Walker) in progenies of Sitka spruce (*Picea sitchensis* (Bong) Carr.) 97 (1997) 207
Seed and seedling variation amongst provenances in *Faidherbia albida* 97 (1997) 197
Geographical information system
Geographical information systems in long-term forest management and planning with special reference to preservation of biological diversity: a review 93 (1997) 121
Geographic information system
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Geostatistics
Geostatistics in evaluating forest damage surveys: considerations on methods for describing spatial distributions 95 (1997) 131
Germination
Effects of ground preparation and microenvironment on germination and natural regeneration of *Juniperus procera* and *Afrocarpus gracilior* in Ethiopia 93 (1997) 215
Fruit, seed and seedling variation in *Uapaca kirkiana* from natural populations in Malawi 98 (1997) 209
GIS
Geographical information systems in long-term forest management and planning with special reference to preservation of biological diversity: a review 93 (1997) 121
Modeling canopy structure and heterogeneity across scales: From crowns to canopy 96 (1997) 217

GIS system modelling
Integrated forest products from former sugarcane plantations in Hawaii 92 (1997) 29
Gliricidia
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Global warming
Wood density for estimating forest biomass in Brazilian Amazonia 90 (1997) 59
Glomus Spp.
Effect of endomycorrhizae (VAM) on bamboo seedling growth and biomass productivity 98 (1997) 205
Grand fir
Reaction of root systems of grand fir (*Abies grandis* Lindl.) and Norway spruce (*Picea abies* Karst.) to seasonal waterlogging 93 (1997) 9
Gravitational soil solutions
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb). Franco) stands on the Beaujolais Mounts (France). 2. Quantitative approach 92 (1997) 167
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb.) Franco) stands on the Beaujolais Mounts (France). 1: Qualitative approach 91 (1997) 255
Green house effect
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
Greenhouse gas emissions
Wood density for estimating forest biomass in Brazilian Amazonia 90 (1997) 59
Green premium
Certified wood markets in the US: implications for tropical deforestation 92 (1997) 221
Green tree retention
Effects of clearcutting and alternative silvicultural systems on rates of decomposition and nitrogen mineralization in a coastal montane coniferous forest 95 (1997) 253
Gross stumpage volume
An experimental comparison of different harvesting intensities with reduced-impact and conventional logging in East Kalimantan, Indonesia 94 (1997) 209
Ground cover
Clearing of vegetation in Mediterranean garrigue: response after a wildfire 93 (1997) 227
Ground flora competition
Natural regeneration of beech (*Fagus sylvatica* L.) with respect to canopy density, soil moisture and soil carbon content 97 (1997) 95
Growth
Comparison of Schnute's and Bertalanffy-Richards' growth functions 96 (1997) 283
Growth curves for *Pinus elliottii*, *Pinus taeda* and *Pinus radiata* in two areas of the Calamuchita Valley (Córdoba, Argentina) 95 (1997) 173
Population dynamics of five tree species in a monodominant Peltogyne forest and two other forest types on Maracá Island, Roraima, Brazil 94 (1997) 115
Growth and yield
Predicting juvenile tree height growth in uneven-aged mixed species stands in Austria 97 (1997) 133
Growth and yield modelling
Augmenting empirical stand projection equations with edaphic and climatic variables 98 (1997) 267
Growth and yield models
Predicted leaf area growth and foliage efficiency of loblolly pine plantations 95 (1997) 109
Growth functions
Construction of site index equations for *Pinus sylvestris* L. using permanent plot data in Sweden 98 (1997) 125
Growth modelling
A model of the growth of juvenile radiata pine in the Central North Island of New Zealand: links with older models and rotation–length analyses of the effects of site preparation 97 (1997) 187
Using plant functional attributes to quantify site productivity and growth patterns in mixed forests 94 (1997) 149
Growth models
Dimensional relationships of open-grown trees in Austria 96 (1997) 197
Growth rate
Using plant functional attributes to quantify site productivity and growth patterns in mixed forests 94 (1997) 149
Guide curve method
Construction of site index equations for *Pinus sylvestris* L. using permanent plot data in Sweden 98 (1997) 125
Habitat
Simulated stand characteristics and wood product yields from Douglas-fir plantations managed for ecosystem objectives 91 (1997) 205
Structure of northern spotted owl nest stands and their historical conditions on the eastern slope of the Pacific Northwest Cascades, USA 94 (1997) 1
Habitat diversity
Structure and abundance of arachnid communities in Scots and lodgepole pine plantations 95 (1997) 197
Habitat suitability
Floristic and structural habitat preferences of yellow-bellied gliders (*Petaurus australis*) and selective logging impacts in southeast Queensland, Australia 98 (1997) 281
Hardwood
Long-term species and structural changes after cleaning young even-aged northern hardwoods in New Hampshire, USA 95 (1997) 11
Hardwood competition
Modeling survival in juvenile and mature loblolly pine plantations 90 (1997) 51
Hardwood forests
Aboveground biomass distribution of US eastern hardwood forests and the use of large trees as an indicator of forest development 96 (1997) 37
Hardwood plantation
Experimental determination of soil characteristics optimal for the growth of ten hardwoods planted on abandoned farmland 96 (1997) 49

Hardwoods
Influence of silvicultural treatments on growth of mature mesquite (*Prosopis glandulosa* var. *glandulosa*) nine years after initiation 94 (1997) 37
Harvest
The effects of timber harvest in a South Carolina blackwater bottomland 90 (1997) 171
Harvesting
Development and testing of regeneration imputation models for forests in Minnesota 94 (1997) 129
Nitrogen fixation in root-colonized large woody residue of Oregon coastal forests 92 (1997) 229
Selection harvests in Amazonian rainforests: long-term impacts on soil properties 93 (1997) 153
Short-term changes in bird communities in response to silvicultural prescriptions 96 (1997) 27
Harvestmen
Structure and abundance of arachnid communities in Scots and lodgepole pine plantations 95 (1997) 197
Harvests
Effects of silvicultural activity on ecological processes in floodplain forests of the southern United States: a review of existing reports 90 (1997) 93
Harvest scheduling
A quantitative approach to cork oak forest management 97 (1997) 223
Model for multi-stand management based on structural attributes of individual stands 96 (1997) 261
HCS–VCS
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Heat efficiency
Energy and nutrient flow through the storage and consumption of upland phytomass fuel 93 (1997) 63
Height development
Stability of height positions in young naturally regenerated stands of Scots pine 97 (1997) 155
Height–diameter curve
Height–diameter curves with random intercepts and slopes for trees growing on drained peatlands 97 (1997) 63
Height/diameter relationship
Improving the simulation of stand structure in a forest gap model 95 (1997) 183
Height growth
Height growth modeling using second order differential equations and the importance of initial height growth 97 (1997) 165
White spruce foliar nutrient concentrations in relation to tree growth and soil nutrient amounts 98 (1997) 89
Height position
Stability of height positions in young naturally regenerated stands of Scots pine 97 (1997) 155
Helicopter harvesting
Amphibian responses to helicopter harvesting in forested floodplains of low order, blackwater streams 90 (1997) 225
Herbaceous and woody flora
Successional changes in plant species diversity and composition after clearcutting a Southern Appalachian watershed 92 (1997) 67
Herbaceous control
Stand characteristics of inter-cropped loblolly pine and black locust 91 (1997) 221
Heritability
Resistance to the green spruce aphid (*Elatobium abietinum* Walker) in progenies of Sitka spruce (*Picea sitchensis* (Bong) Carr.) 97 (1997) 207
Herpetofauna
The effects of timber harvest in a South Carolina blackwater bottomland 90 (1997) 171
History
Variation in the amount of dead wood in the woodlands of the Lower Wye Valley, UK in relation to the intensity of management 98 (1997) 229
Human disturbance
Conversion of anthropogenic savanna to production forest through fire-protection of the forest–savanna edge in Gabon, Central Africa 94 (1997) 233
Human ecology
Human ecological questions for tropical restoration: experiences from planting native upland trees and mangroves in the Philippines 99 (1997) 275
Hurricane
Hurricane disturbance and the regeneration of *Lysiloma latisiliquum* (Fabaceae): a tropical tree in south Florida 92 (1997) 97
Hydrologic regime
A comparison of wetland tree growth response to hydrologic regime in Louisiana and South Carolina 90 (1997) 237
Hydrology
Development and ecology of bottomland hardwood sites 90 (1997) 117
Nitrogen saturation in Japanese forests: an evaluation 97 (1997) 39
Hypogeous fungi
Truffle production in old-growth and mature fir stands in northeastern California 96 (1997) 155
IBA
Vegetative propagation of *Cordia alliodora* (Ruiz & Pavon) Oken: the effects of IBA concentration, propagation medium and cutting origin 92 (1997) 45
Ilex glabra (L) A. Gray
Long-term effects of dormant-season prescribed fire on plant community diversity, structure and productivity in a longleaf pine wiregrass ecosystem 96 (1997) 167
Image processing
Tree invasion within a pine/grassland ecotone: an approach with historic aerial photography and GIS modeling 93 (1997) 181
Impacts
Influences of harvesting on functions of floodplain forests associated with low-order, blackwater streams 90 (1997) 217
Increment core
Growth curves for *Pinus elliottii*, *Pinus taeda* and *Pinus radiata* in two areas of the Calamuchita Valley (Córdoba, Argentina) 95 (1997) 173
India
Poplar agroforestry in India 90 (1997) 13

Individual-tree model
Modeling diameter growth for pinyon and juniper trees in dryland forests 93 (1997) 21
Indonesia
An experimental comparison of different harvesting intensities with reduced-impact and conventional logging in East Kalimantan, Indonesia 94 (1997) 209
'Without bamboo, the land dies': nutrient cycling and biogeochemistry of a Javanese bamboo *talun–kebun* system 91 (1997) 155
Infestation
Temporal and inter-tree variations of attack by *Hypsipyla robusta* moore (Lepidoptera: Pyralidae) in Australian Red Cedar (*Toona australis* (F. Muell.) Harmes) 96 (1997) 139
Infestation pattern
Within-tree distribution of attack by *Hypsipyla robusta* Moore (Lepidoptera: Pyralidae) in Australian Red Cedar (*Toona australis* (F. Muell.) Harmes) 96 (1997) 147
Inhibition
Spectral techniques in spatial analysis 94 (1997) 165
Inoculation
Growth stimulation of young oak plantations inoculated with the ectomycorrhizal fungus *Paxillus involutus* with special reference to summer drought 98 (1997) 221
Inorganic ions
Effect of phenolic compounds on selected soil properties 92 (1997) 11
Input–output budgets
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb). Franco) stands on the Beaujolais Mounts (France). 2. Quantitative approach 92 (1997) 167
Insectivores
Factors influencing amphibian and small mammal assemblages in central Appalachian forests 96 (1997) 65
Insect pest
Resistance to the green spruce aphid (*Elatobium abietinum* Walker) in progenies of Sitka spruce (*Picea sitchensis* (Bong) Carr.) 97 (1997) 207
Integrated management
Influence of silvicultural practices on twisting rust infection and damage in maritime pine, as related to growth 98 (1997) 135
Intensive cropping
Intensive plantation cropping, a source of sustainable food and energy production in the tropical rain forest areas in southeast Asia 91 (1997) 93
Inter-cropping
Stand characteristics of inter-cropped loblolly pine and black locust 91 (1997) 221
Intercropping
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Poplar agroforestry in India 90 (1997) 13
Invasive plants
Floristic and structural patterns along a chronosequence of secondary forest succession in Argentinean subtropical montane forests 95 (1997) 161
Irrigation
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
Jarrah
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Java
'Without bamboo, the land dies': A conceptual model of the biogeochemical role of bamboo in an Indonesian agroforestry system 91 (1997) 83
Juniperus deppeana
Modeling diameter growth for pinyon and juniper trees in dryland forests 93 (1997) 21
Juniperus excelsa
In vitro induction of multiple buds in tissue culture of *Juniperus excelsa* 98 (1997) 115
Juniperus monosperma
Modeling diameter growth for pinyon and juniper trees in dryland forests 93 (1997) 21
Juniperus osteosperma
Modeling diameter growth for pinyon and juniper trees in dryland forests 93 (1997) 21
Juniperus procera
Effects of ground preparation and microenvironment on germination and natural regeneration of *Juniperus procera* and *Afrocarpus gracilior* in Ethiopia 93 (1997) 215
Juniperus scopulorum
Modeling diameter growth for pinyon and juniper trees in dryland forests 93 (1997) 21
Kenya
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Kernel estimation
The structure of forest stands in virgin and managed peatlands: a comparison between Finnish and Russian Karelia 96 (1997) 125
Kriging
Geostatistics in evaluating forest damage surveys: considerations on methods for describing spatial distributions 95 (1997) 131
Lake States
Height growth modeling using second order differential equations and the importance of initial height growth 97 (1997) 165
Land application
Nitrogen transformations and soil processes in a wastewater-irrigated, mature Appalachian hardwood forest 90 (1997) 1
Landscape
Basing silviculture on natural ecosystem dynamics: an approach applied to the southern boreal mixedwood forest of Quebec 92 (1997) 235
Environmental determinants of plant and bird diversity in ancient oak–hazel woodland in Sweden 91 (1997) 137

Landscape ecology
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Landscape-level effects of forest management on faunal diversity in bottomland hardwoods 90 (1997) 141
Predicting late-successional fire refugia pre-dating European settlement in the Wenatchee Mountains 95 (1997) 63
Land tenure
Farm forestry: an alternative to government-driven reforestation in the Philippines 99 (1997) 261
Land use
Biomass energy in industrialised countries—a view of the future 91 (1997) 17
Potentials and limitations of agroforestry for changing land-use in the tropics: experiences from Central America 91 (1997) 61
Large trees
Aboveground biomass distribution of US eastern hardwood forests and the use of large trees as an indicator of forest development 96 (1997) 37
Larix
Age distribution patterns in open boreal Dahurican larch forests of Central Siberia 93 (1997) 205
Larval age
Within-tree distribution of attack by *Hypsipyla robusta* Moore (Lepidoptera: Pyralidae) in Australian Red Cedar (*Toona australis* (F. Muell.) Harmes) 96 (1997) 147
Layering
Effects of scarification on seedbed coverage and natural regeneration after a group seed-tree cutting in a black spruce (*Picea mariana*) stand 94 (1997) 219
Leaf area
Rooting of *Shorea leprosula* stem cuttings decreases with increasing leaf area 91 (1997) 247
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Leaf area index
Effects of leaf aggregation in a broad-leaf canopy on estimates of leaf area index by the gap-fraction method 97 (1997) 277
Predicted leaf area growth and foliage efficiency of loblolly pine plantations 95 (1997) 109
Leaf water relations
Leaf water relations in six provenances of *Eucalyptus microtheca*: a greenhouse experiment 92 (1997) 1
Leucaena
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Lianas
Vine management for reduced-impact logging in eastern Amazonia 98 (1997) 105
Liberation cutting
Effect of gap liberation on the performance and growth of dipterocarp trees in a logged-over rainforest 92 (1997) 209
LI-COR LAI-2000
Effects of leaf aggregation in a broad-leaf canopy on estimates of leaf area index by the gap-fraction method 97 (1997) 277
Light
Natural regeneration of beech (*Fagus sylvatica* L.) with respect to canopy density, soil moisture and soil carbon content 97 (1997) 95
Liming
Effects of liming and fertilization on growth, soil chemistry and soil water chemistry in a Norway spruce plantation on a nutrient-poor soil in Denmark 92 (1997) 55
Linear programming
A quantitative approach to cork oak forest management 97 (1997) 223
Integrated forest products from former sugarcane plantations in Hawaii 92 (1997) 29
Lithocarpus densiflorus
Growth responses of young Douglas-fir and tanoak 11 years after various levels of hardwood removal and understory suppression in southwestern Oregon, USA 96 (1997) 1
Litter
Effects of clearcutting and alternative silvicultural systems on rates of decomposition and nitrogen mineralization in a coastal montane coniferous forest 95 (1997) 253
Litter fall
Variation in biomass and net primary productivity in short rotation high density central Himalayan poplar plantations 98 (1997) 167
Litter heterogeneity
Litter decomposition in semideciduous forest and *Eucalyptus* spp. crop in Brazil: a comparison 94 (1997) 31
Local
Regional patterns of local diversity of trees: associations with anthropogenic disturbance 93 (1997) 33
Logging damage
Vine management for reduced-impact logging in eastern Amazonia 98 (1997) 105
Logging residues
Influence of mechanical site preparation on decomposition and nutrient dynamics of Norway spruce (*Picea abies* (L.) Karst.) needle litter and slash needles 96 (1997) 101
Logging roads
Sedimentation associated with forest road surfacing in a bottomland hardwood ecosystem 90 (1997) 195
Logistic regression
The influence of the form of tenure on reforestation in British Columbia 98 (1997) 239
Longleaf pine
Stand conditions and tree characteristics affect quality of longleaf pine for red-cockaded woodpecker cavity trees 91 (1997) 145
Long-lived pioneers
Floristic and structural patterns along a chronosequence of secondary forest succession in Argentinean subtropical montane forests 95 (1997) 161
Long-term acidification
Acidification of forest top soils in 60 years to the southwest of Helsinki 94 (1997) 187

Long-term species
Long-term species and structural changes after cleaning young even-aged northern hardwoods in New Hampshire, USA 95 (1997) 11
Louisiana
A comparison of wetland tree growth response to hydrologic regime in Louisiana and South Carolina 90 (1997) 237
Lysiloma latisiliquum
Hurricane disturbance and the regeneration of *Lysiloma latisiliquum* (Fabaceae): a tropical tree in south Florida 92 (1997) 97
Macronutrient concentration
Energy and nutrient flow through the storage and consumption of upland phytomass fuel 93 (1997) 63
Magnesium
Results of long-term K and Mg fertilizer experiments in afforestation 91 (1997) 47
Maize yield
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
Malawi
Fruit, seed and seedling variation in *Uapaca kirkiana* from natural populations in Malawi 98 (1997) 209
Models for the estimation of single tree volume in four Miombo woodland types 97 (1997) 25
The effect of a *Eucalyptus camaldulensis* (Dehn) plantation on native woodland recovery on Ulumba Mountain, southern Malawi 99 (1997) 63
Management
Basing silviculture on natural ecosystem dynamics: an approach applied to the southern boreal mixedwood forest of Quebec 92 (1997) 235
Mangroves of China: a brief review 96 (1997) 241
Management potential
Composition, structure and management potential of secondary dry tropical vegetation in two abandoned henequen plantations of Yucatan, Mexico 94 (1997) 79
Composition, structure, and management potential of secondary dry tropical vegetation in two abandoned henequen plantations of Yucatan, Mexico 96 (1997) 273
Mangrove conservation
Mangroves of China: a brief review 96 (1997) 241
Mangrove research
Mangroves of China: a brief review 96 (1997) 241
Mangroves
Human ecological questions for tropical restoration: experiences from planting native upland trees and mangroves in the Philippines 99 (1997) 275
Mangroves of China: a brief review 96 (1997) 241
Mass balances
Nitrogen saturation in Japanese forests: an evaluation 97 (1997) 39
Mature tree
Reduced soil P availability in a Sitka spruce (*Picea sitchensis* (Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153
Measurement
A measuring system for characterizing spatial and temporal variation of photon flux density within plant canopies 97 (1997) 85
Mediterranean ecosystems
Conditions determining natural regeneration after wildfires in the *Pinus halepensis* (Miller, 1768) forests of Kassandra Peninsula (North Greece) 92 (1997) 199
Mediterranean forestry
A quantitative approach to cork oak forest management 97 (1997) 223
Mediterranean shrubland
Clearing of vegetation in Mediterranean garrigue: response after a wildfire 93 (1997) 227
Melaleuca
Early growth of six native Australian tree species in windbreaks and their effect on potato growth in tropical northern Australia 95 (1997) 21
Melampsora pinitorqua
Influence of silvicultural practices on twisting rust infection and damage in maritime pine, as related to growth 98 (1997) 135
Metrosideros polymorpha
Effects of leaf aggregation in a broad-leaf canopy on estimates of leaf area index by the gap-fraction method 97 (1997) 277
Microenvironment
Effects of ground preparation and microenvironment on germination and natural regeneration of *Juniperus procera* and *Afrocarpus gracilior* in Ethiopia 93 (1997) 215
Mineralisation
Influence of mechanical site preparation on decomposition and nutrient dynamics of Norway spruce (*Picea abies* (L.) Karst.) needle litter and slash needles 96 (1997) 101
Miombo
Models for the estimation of single tree volume in four Miombo woodland types 97 (1997) 25
The effect of a *Eucalyptus camaldulensis* (Dehn) plantation on native woodland recovery on Ulumba Mountain, southern Malawi 99 (1997) 63
Misiones
Enrichment planting in overexploited subtropical forests of the Paranaense region of Misiones, Argentina 99 (1997) 237
Mixed beech–larch stand
Analysis and modeling of spatial stand structures. Methodological considerations based on mixed beech–larch stands in Lower Saxony 97 (1997) 237
Mixed stand
Comparison of growth and nutrition of young monocultures and mixed stands of *Eucalyptus globulus* and *Acacia mearnsii* 94 (1997) 105
Mixed-stand silviculture
Stand characteristics of inter-cropped loblolly pine and black locust 91 (1997) 221
Model
Recovery of the rain forest tree *Vochysia ferruginea* over 5 years following Hurricane Joan in Nicaragua: a preliminary population projection matrix 91 (1997) 195
Model calculation
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229

Model comparison
Comparison of Schnute's and Bertalanffy-Richards' growth functions 96 (1997) 283
Modelling
Dimensional relationships of open-grown trees in Austria 96 (1997) 197
Monodominance
Population dynamics of five tree species in a monodominant Peltogyne forest and two other forest types on Maracá Island, Roraima, Brazil 94 (1997) 115
Montane tropical forest
Effects of leaf aggregation in a broad-leaf canopy on estimates of leaf area index by the gap-fraction method 97 (1997) 277
Monte Carlo simulation
On the prediction bias and variance in long-term growth projections 96 (1997) 207
Morphology
The role of hair-cap mosses (*Polytrichum* spp.) in natural regeneration of white spruce (*Picea glauca* (Moench) Voss) 92 (1997) 19
Mortality
Modeling survival in juvenile and mature loblolly pine plantations 90 (1997) 51
Population dynamics of five tree species in a monodominant Peltogyne forest and two other forest types on Maracá Island, Roraima, Brazil 94 (1997) 115
Mountain forests
Atmospheric deposition and impact of forest thinning on the throughfall of mountain forest ecosystems in the Bavarian Alps 95 (1997) 243
Multi-aged structure
Age distribution patterns in open boreal Dahurican larch forests of Central Siberia 93 (1997) 205
Multicohort
Age and size distribution in a long-term forest dynamics 92 (1997) 39
Native species
Enrichment planting in overexploited subtropical forests of the Paranaense region of Misiones, Argentina 99 (1997) 237
Natural forest dynamics
Silvicultural models to maintain and restore natural stand structures in Swedish boreal forests 94 (1997) 89
Natural forests
A comparison of understorey vegetation between untouched and managed deciduous forest in Denmark 96 (1997) 111
Natural radiation
Effect of position, size of cuttings and environmental factors on adventitious rooting in neem (*Azadirachta indica* A. Juss) 98 (1997) 277
Natural regeneration
Conditions determining natural regeneration after wildfires in the *Pinus halepensis* (Miller, 1768) forests of Kassandra Peninsula (North Greece) 92 (1997) 199
Effects of ground preparation and microenvironment on germination and natural regeneration of *Juniperus procera* and *Afrocarpus gracilior* in Ethiopia 93 (1997) 215
Evaluation of Andean alder as a catalyst for the recovery of tropical cloud forests in Colombia 99 (1997) 163
Natural regeneration potential and early development of *Shorea robusta* Gaertn.f. forest after regeneration felling in the Bhabar-Terai zone in Nepal 92 (1997) 243
Restoration of plant biodiversity beneath tropical tree plantations in Northern Australia 99 (1997) 117
Secondary forest regeneration beneath pine (*Pinus kesiya*) plantations in the northern Thai highlands: a chronosequence study 99 (1997) 171
Seedling emergence of *Betula maximowicziana* following human disturbance and the role of buried viable seeds 93 (1997) 235
Nature conservation
Stand structure and successional trends in virgin boreal forest reserves in Sweden 98 (1997) 17
N-availability
The use of soil organic matter as a criterion of the relative sustainability of forest management alternatives: a modelling approach using FORECAST 94 (1997) 61
N deposition
Does atmospheric deposition of nitrogen threaten Swedish forests? 92 (1997) 119
Nearest-neighbor statistic
Spatial models of competition and gap dynamics in old-growth *Tsuga heterophylla/Thuja plicata* forests 94 (1997) 175
Nearest-neighbour method
Analysis and modeling of spatial stand structures. Methodological considerations based on mixed beech–larch stands in Lower Saxony 97 (1997) 237
Needle chemistry
Effects of low-dose liming and nitrogen fertilization on stemwood growth and needle properties of *Picea abies* and *Pinus sylvestris* 95 (1997) 261
Needle conductance
Temporal and spatial patterns of net photosynthesis in 12-year-old loblolly pine five growing seasons after thinning 97 (1997) 73
Needle growth
Changes in the canopy and growth of *Pinus radiata* in response to nitrogen supply 93 (1997) 137
Needle/leaf loss
Geostatistics in evaluating forest damage surveys: considerations on methods for describing spatial distributions 95 (1997) 131
Needle weight
Effects of low-dose liming and nitrogen fertilization on stemwood growth and needle properties of *Picea abies* and *Pinus sylvestris* 95 (1997) 261
Neotropical forest
Forest damage caused by selection logging of mahogany (*Swietenia macrophylla*) in northern Belize 92 (1997) 87
Neotropical migratory birds
Short-term changes in bird communities in response to silvicultural prescriptions 96 (1997) 27
Nepal
Natural regeneration potential and early development of *Shorea robusta* Gaertn.f. forest after regeneration felling in the Bhabar-Terai zone in Nepal 92 (1997) 243

Nest sites
Factors affecting the abundance of hollows in logs in jarrah forest of south-western Australia 95 (1997) 153
Structure of northern spotted owl nest stands and their historical conditions on the eastern slope of the Pacific Northwest Cascades, USA 94 (1997) 1
Net photosynthesis
Pre-planting physiological stress assessment to forecast field growth performance of jack pine and black spruce 92 (1997) 107
Net primary productivity
Variation in biomass and net primary productivity in short rotation high density central Himalayan poplar plantations 98 (1997) 167
Nitrate
Nitrogen saturation in Japanese forests: an evaluation 97 (1997) 39
Stream water and soil solution responses to 5 years of nitrogen and sulfur additions at the Fernow Experimental Forest, West Virginia 95 (1997) 79
Nitrification
Effects of clearcutting and alternative silvicultural systems on rates of decomposition and nitrogen mineralization in a coastal montane coniferous forest 95 (1997) 253
Nitrogen
Changes in the canopy and growth of *Pinus radiata* in response to nitrogen supply 93 (1997) 137
Streamwater chemistry and nutrient budgets for forested watersheds in New England: variability and management implications 93 (1997) 73
Nitrogen cycling
Nitrogen transformations and soil processes in a wastewater-irrigated, mature Appalachian hardwood forest 90 (1997) 1
Nitrogen deposition
Using vector analysis to assess nitrogen status of ponderosa and Jeffrey pine along deposition gradients in forests of southern California 94 (1997) 47
Nitrogen fixation
Nitrogen fixation in root-colonized large woody residue of Oregon coastal forests 92 (1997) 229
Silvicultural treatments for sapling mesquite (*Prosopis glandulosa* var. *glandulosa*) to optimize timber production and minimize seedling encroachment 96 (1997) 231
Nitrogen fixing trees
Bioassays of the influence of *Eucalyptus saligna* and *Albizia falcataria* on soil nutrient supply and limitation 91 (1997) 229
Nitrogen-fixing trees
Influence of silvicultural treatments on growth of mature mesquite (*Prosopis glandulosa* var. *glandulosa*) nine years after initiation 94 (1997) 37
Nitrogen saturation
Using vector analysis to assess nitrogen status of ponderosa and Jeffrey pine along deposition gradients in forests of southern California 94 (1997) 47
Nitrogen status
Using vector analysis to assess nitrogen status of ponderosa and Jeffrey pine along deposition gradients in forests of southern California 94 (1997) 47
Nitrogen uptake
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
N nutrition
Comparison of growth and nutrition of young monocultures and mixed stands of *Eucalyptus globulus* and *Acacia mearnsii* 94 (1997) 105
Nonlinear programming
Model for multi-stand management based on structural attributes of individual stands 96 (1997) 261
Norway spruce
Height–diameter curves with random intercepts and slopes for trees growing on drained peatlands 97 (1997) 63
Norway spruce
Effects of liming and fertilization on growth, soil chemistry and soil water chemistry in a Norway spruce plantation on a nutrient-poor soil in Denmark 92 (1997) 55
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229
Reaction of root systems of grand fir (*Abies grandis* Lindl.) and Norway spruce (*Picea abies* Karst.) to seasonal waterlogging 93 (1997) 9
N saturation
Does atmospheric deposition of nitrogen threaten Swedish forests? 92 (1997) 119
Stream water and soil solution responses to 5 years of nitrogen and sulfur additions at the Fernow Experimental Forest, West Virginia 95 (1997) 79
NTFP
Sustainable development of non-timber forest products: implication for forest management in India 94 (1997) 15
Nutrient availability
Long-term effects of commercial sawlog harvest on soil cation concentrations 93 (1997) 1
Nutrient cycling
Alley cropping—soil productivity and nutrient recycling 91 (1997) 75
Conversion of anthropogenic savanna to production forest through fire-protection of the forest–savanna edge in Gabon, Central Africa 94 (1997) 233
Factors influencing the availability of nitrogen in thinned and unthinned Douglas-fir stands in the central Oregon Cascades 93 (1997) 195
Litter decomposition in semideciduous forest and *Eucalyptus* spp. crop in Brazil: a comparison 94 (1997) 31
Nutrients
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb). Franco) stands on the Beaujolais Mounts (France). 2. Quantitative approach 92 (1997) 167

Nutrient dynamics in a chronosequence of Douglas-fir (*Pseudotsuga menziesii* (Mirb.) Franco) stands on the Beaujolais Mounts (France). 1: Qualitative approach 91 (1997) 255
Oak
Vertebrate predation on Holm Oak, *Quercus ilex*, acorns in a fragmented habitat: effects on seedling recruitment 98 (1997) 181
Oak regeneration
Ectomycorrhizal colonization of *Quercus rubra* seedlings in response to vegetation removals in oak and pine stands 93 (1997) 91
Oil palm
Intensive plantation cropping, a source of sustainable food and energy production in the tropical rain forest areas in southeast Asia 91 (1997) 93
Old-growth
Aboveground biomass distribution of US eastern hardwood forests and the use of large trees as an indicator of forest development 96 (1997) 37
Age and size distribution in a long-term forest dynamics 92 (1997) 39
Vegetation development of boreal riparian plant communities after flooding, fire, and logging, Peace River, Canada 93 (1997) 101
Old-growth loblolly pine
Succession dynamics in a maritime forest following Hurricane Hugo and fuel reduction burns 95 (1997) 275
On-farm research
Potentials and limitations of agroforestry for changing land-use in the tropics: experiences from Central America 91 (1997) 61
On-station research
Potentials and limitations of agroforestry for changing land-use in the tropics: experiences from Central America 91 (1997) 61
Open-grown trees
Dimensional relationships of open-grown trees in Austria 96 (1997) 197
Operability analysis
Stand density management diagrams: Review of their development and utility in stand-level management planning 98 (1997) 251
Optical canopy measurement
Effects of leaf aggregation in a broad-leaf canopy on estimates of leaf area index by the gap-fraction method 97 (1997) 277
Optimization
Model for multi-stand management based on structural attributes of individual stands 96 (1997) 261
Ordination
Gradient analysis in a riparian landscape: contrasts among forest layers 96 (1997) 13
Tornado and fire effects on tree species composition in a savanna in the Big Thicket National Preserve, southeast Texas, USA 91 (1997) 279
Vegetation development of boreal riparian plant communities after flooding, fire, and logging, Peace River, Canada 93 (1997) 101
Organic matter
Effect of phenolic compounds on selected soil properties 92 (1997) 11
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Organic nitrogen
Effect of phenolic compounds on selected soil properties 92 (1997) 11
Osmotic adjustment
Leaf water relations in six provenances of *Eucalyptus microtheca*: a greenhouse experiment 92 (1997) 1
Overexploited forest
Enrichment planting in overexploited subtropical forests of the Paranaense region of Misiones, Argentina 99 (1997) 237
Overstory–understory relationships
Effectiveness of basal area for estimating canopy cover of ponderosa pine 95 (1997) 45
Owl neighborhoods
Structure of northern spotted owl nest stands and their historical conditions on the eastern slope of the Pacific Northwest Cascades, USA 94 (1997) 1
Ozarks
Gradient analysis in a riparian landscape: contrasts among forest layers 96 (1997) 13
Pacific Northwest
The role of terrain in a fire mosaic of a temperate coniferous forest 95 (1997) 97
Paper birch
Effects of scarification on seedbed coverage and natural regeneration after a group seed-tree cutting in a black spruce (*Picea mariana*) stand 94 (1997) 219
Parameter prediction method
Construction of site index equations for *Pinus sylvestris* L. using permanent plot data in Sweden 98 (1997) 125
Paranaense forest
Enrichment planting in overexploited subtropical forests of the Paranaense region of Misiones, Argentina 99 (1997) 237
Partial cutting of forests
A gap-based approach for development of silvicultural systems to address ecosystem management objectives 99 (1997) 337
Partial cuttings
Silvicultural systems for southern bottomland hardwood forests 90 (1997) 127
Partitioning
A generalised model of forest productivity using simplified concepts of radiation-use efficiency, carbon balance and partitioning 95 (1997) 209
Patch cut
Effects of clearcutting and alternative silvicultural systems on rates of decomposition and nitrogen mineralization in a coastal montane coniferous forest 95 (1997) 253
Patch cutting
Silvicultural systems for southern bottomland hardwood forests 90 (1997) 127
Pathogenicity
Survey and virulence of fungi occurring on diseased *Acacia mearnsii* in South Africa 99 (1997) 327
P deficiency
Reduced soil P availability in a Sitka spruce (*Picea sitchensis*

(Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153
Peatland
Effects on the flora in Norway spruce forests following clearcutting and shelterwood cutting 90 (1997) 29
Tree stand biomass and carbon content in an age sequence of drained pine mires in southern Finland 93 (1997) 161
Peatland drainage
The structure of forest stands in virgin and managed peatlands: a comparison between Finnish and Russian Karelia 96 (1997) 125
Peatland forest
Height–diameter curves with random intercepts and slopes for trees growing on drained peatlands 97 (1997) 63
Petaurus australis
Floristic and structural habitat preferences of yellow-bellied gliders (*Petaurus australis*) and selective logging impacts in southeast Queensland, Australia 98 (1997) 281
P. euphratica
Photosynthetic response of *Populus euphratica* to salt stress 93 (1997) 55
Pheromone traps
Forest roadside sampling of larvae and adults of the western hemlock looper, *Lambdina fiscellaria lugubrosa* 93 (1997) 45
Photon flux density
A measuring system for characterizing spatial and temporal variation of photon flux density within plant canopies 97 (1997) 85
Photosynthesis
Rooting of *Shorea leprosula* stem cuttings decreases with increasing leaf area 91 (1997) 247
An ecophysiological evaluation of the suitability of *Eucalyptus grandis* for planting in the tropics 95 (1997) 53
Photosynthetic response of *Populus euphratica* to salt stress 93 (1997) 55
Vegetative propagation of *Cordia alliodora* (Ruiz & Pavon) Oken: the effects of IBA concentration, propagation medium and cutting origin 92 (1997) 45
Phototaxis
Attraction and direct mortality of pandora moths, *Coloradia pandora* (Lepidoptera: Saturniidae), by nocturnal fire 98 (1997) 71
Physiological processes
A generalised model of forest productivity using simplified concepts of radiation-use efficiency, carbon balance and partitioning 95 (1997) 209
Phytofuel stove
Energy and nutrient flow through the storage and consumption of upland phytomass fuel 93 (1997) 63
Phytofuel use
Energy and nutrient flow through the storage and consumption of upland phytomass fuel 93 (1997) 63
Picea abies
A method for stochastic multiobjective optimization of stand management 98 (1997) 189
Individual tree basal area growth models for young stands of Norway spruce in Sweden 97 (1997) 173
Variation in shoot water status of *Picea abies* (L.) Karst. trees with different life histories 97 (1997) 53
Picea glauca
White spruce foliar nutrient concentrations in relation to tree growth and soil nutrient amounts 98 (1997) 89
Picea sitchensis
Reduced soil P availability in a Sitka spruce (*Picea sitchensis* (Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153
Resistance to the green spruce aphid (*Elatobium abietinum* Walker) in progenies of Sitka spruce (*Picea sitchensis* (Bong) Carr.) 97 (1997) 207
Pine
The response in water yield to the thinning of *Pinus radiata*, *Pinus patula* and *Eucalyptus grandis* plantations 99 (1997) 295
Pinus
Understory vegetation in fast-growing tree plantations on savanna soils in Congo 99 (1997) 65
Pinus
Ectomycorrhizal colonization of *Quercus rubra* seedlings in response to vegetation removals in oak and pine stands 93 (1997) 91
Native forest regeneration in pine and eucalypt plantations in Northern Province, South Africa 99 (1997) 101
Pinus banksiana
The impact of broadcast burning and fire severity on species composition and abundance of surface vegetation in a jack pine (*Pinus banksiana*) clear-cut 94 (1997) 141
Pinus caribaea
Restoration of plant biodiversity beneath tropical tree plantations in Northern Australia 99 (1997) 117
Pinus contorta
Structure and abundance of arachnid communities in Scots and lodgepole pine plantations 95 (1997) 197
Pinus edulis
Modeling diameter growth for pinyon and juniper trees in dryland forests 93 (1997) 21
Pinus halepensis forest
Changes and effects of a natural fire on ectomycorrhizal inoculum potential of soil in a *Pinus halepensis* forest 96 (1997) 189
Pinus kesiya
Secondary forest regeneration beneath pine (*Pinus kesiya*) plantations in the northern Thai highlands: a chronosequence study 99 (1997) 171
Pinus muricata
Growth of *Pinus muricata* provenances in the highlands of Ecuador 99 (1997) 291
Pinus palustris Mill.
Long-term effects of dormant-season prescribed fire on plant community diversity, structure and productivity in a longleaf pine wiregrass ecosystem 96 (1997) 167
Pinus palustris mill.
Tornado and fire effects on tree species composition in a savanna in the Big Thicket National Preserve, southeast Texas, USA 91 (1997) 279

Pinus pinaster
Influence of silvicultural practices on twisting rust infection and damage in maritime pine, as related to growth 98 (1997) 135
Pinus radiata
Changes in the canopy and growth of *Pinus radiata* in response to nitrogen supply 93 (1997) 137
Growth of *Pinus muricata* provenances in the highlands of Ecuador 99 (1997) 291
Pinus spp.
Growth curves for *Pinus elliottii*, *Pinus taeda* and *Pinus radiata* in two areas of the Calamuchita Valley (Córdoba, Argentina) 95 (1997) 173
Pinus sylvestris
A method for stochastic multiobjective optimization of stand management 98 (1997) 189
Height–diameter curves with random intercepts and slopes for trees growing on drained peatlands 97 (1997) 63
Modelling probability of snow and wind damage in Scots pine stands using tree characteristics 97 (1997) 215
More timber from boreal forests under changing climate? 94 (1997) 195
Stability of height positions in young naturally regenerated stands of Scots pine 97 (1997) 155
Structure and abundance of arachnid communities in Scots and lodgepole pine plantations 95 (1997) 197
Pinus sylvestris L.
Effects of long-term CO_2 and temperature elevation on crown nitrogen distribution and daily photosynthetic performance of Scots pine 99 (1997) 309
Pinus taeda
Temporal and spatial patterns of net photosynthesis in 12-year-old loblolly pine five growing seasons after thinning 97 (1997) 73
Pinus taeda
Stand characteristics of inter-cropped loblolly pine and black locust 91 (1997) 221
Plantation
Catalyzing native forest regeneration on degraded tropical lands 99 (1997) 1
Financial, economic and environmental profitability of reforestation of *Imperata* grasslands in Indonesia 99 (1997) 247
Rehabilitation and development of forest on degraded hills of Hong Kong 99 (1997) 197
Secondary forest regeneration beneath pine (*Pinus kesiya*) plantations in the northern Thai highlands: a chronosequence study 99 (1997) 171
Plantations
Development of floristic diversity in 10-year-old restoration forests on a bauxite mined site in Amazonia 99 (1997) 21
Evaluation of Andean alder as a catalyst for the recovery of tropical cloud forests in Colombia 99 (1997) 163
The response in water yield to the thinning of *Pinus radiata*, *Pinus patula* and *Eucalyptus grandis* plantations 99 (1997) 295
The role of animal seed dispersal in accelerating native forest regeneration on degraded tropical lands 99 (1997) 223
Plant canopies
A measuring system for characterizing spatial and temporal variation of photon flux density within plant canopies 97 (1997) 85
Plant community ecology
Gradient analysis in a riparian landscape: contrasts among forest layers 96 (1997) 13
Plant fluorescence
Photosynthetic response of *Populus euphratica* to salt stress 93 (1997) 55
Plant functional attributes
Using plant functional attributes to quantify site productivity and growth patterns in mixed forests 94 (1997) 149
P nutrition
Comparison of growth and nutrition of young monocultures and mixed stands of *Eucalyptus globulus* and *Acacia mearnsii* 94 (1997) 105
Point process models
Spatial models of competition and gap dynamics in old-growth *Tsuga heterophylla/Thuja plicata* forests 94 (1997) 175
Poisson regression
Factors affecting the abundance of hollows in logs in jarrah forest of south-western Australia 95 (1997) 153
Polar spectrum
Spectral techniques in spatial analysis 94 (1997) 165
Policy
The influence of the form of tenure on reforestation in British Columbia 98 (1997) 239
Ponderosa pine
Attraction and direct mortality of pandora moths, *Coloradia pandora* (Lepidoptera: Saturniidae), by nocturnal fire 98 (1997) 71
Effectiveness of basal area for estimating canopy cover of ponderosa pine 95 (1997) 45
Tree invasion within a pine/grassland ecotone: an approach with historic aerial photography and GIS modeling 93 (1997) 181
Poplar
Poplar agroforestry in India 90 (1997) 13
Population structure
Population dynamics of five tree species in a monodominant Peltogyne forest and two other forest types on Maracá Island, Roraima, Brazil 94 (1997) 115
Populus
Photosynthetic response of *Populus euphratica* to salt stress 93 (1997) 55
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Populus deltoides
Variation in biomass and net primary productivity in short rotation high density central Himalayan poplar plantations 98 (1997) 167
Populus tremuloides
Height growth modeling using second order differential equations and the importance of initial height growth 97 (1997) 165

Potassium
Results of long-term K and Mg fertilizer experiments in afforestation 91 (1997) 47
Potential biodiversity
The structure of forest stands in virgin and managed peatlands: a comparison between Finnish and Russian Karelia 96 (1997) 125
Preferences
A method for stochastic multiobjective optimization of stand management 98 (1997) 189
Prescribed burning
Tornado and fire effects on tree species composition in a savanna in the Big Thicket National Preserve, southeast Texas, USA 91 (1997) 279
Pressure chamber
Variation in shoot water status of *Picea abies* (L.) Karst. trees with different life histories 97 (1997) 53
Probability sampling
Regional patterns of local diversity of trees: associations with anthropogenic disturbance 93 (1997) 33
Process model
More timber from boreal forests under changing climate? 94 (1997) 195
Productivity
Alley cropping—soil productivity and nutrient recycling 91 (1997) 75
Property rights
The influence of the form of tenure on reforestation in British Columbia 98 (1997) 239
Provenances
Growth of *Pinus muricata* provenances in the highlands of Ecuador 99 (1997) 291
Provenance selection
Leaf water relations in six provenances of *Eucalyptus microtheca*: a greenhouse experiment 92 (1997) 1
Proximal end
Effect of position, size of cuttings and environmental factors on adventitious rooting in neem (*Azadirachta indica* A. Juss) 98 (1997) 277
Prunus
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Prunus avium L.
Transpiration rate of *Prunus avium* L. seedlings inside an unventilated treeshelter 97 (1997) 255
Pseudogley soils
Reaction of root systems of grand fir (*Abies grandis* Lindl.) and Norway spruce (*Picea abies* Karst.) to seasonal waterlogging 93 (1997) 9
Pseudotsuga menziesii
Growth responses of young Douglas-fir and tanoak 11 years after various levels of hardwood removal and understory suppression in southwestern Oregon, USA 96 (1997) 1
Pulpwood
Financial, economic and environmental profitability of reforestation of *Imperata* grasslands in Indonesia 99 (1997) 247
Queensland Australia
Using plant functional attributes to quantify site productivity and growth patterns in mixed forests 94 (1997) 149
Quercus
Age and size distribution in a long-term forest dynamics 92 (1997) 39
Silvicultural systems for southern bottomland hardwood forests 90 (1997) 127
Quercus coccifera
Clearing of vegetation in Mediterranean garrigue: response after a wildfire 93 (1997) 227
Quercus crispula
The stand dynamics of a mixed coppice forest of shade-tolerant and intermediate species 95 (1997) 35
Quercus petraea
Growth stimulation of young oak plantations inoculated with the ectomycorrhizal fungus *Paxillus involutus* with special reference to summer drought 98 (1997) 221
Quercus robur
Growth stimulation of young oak plantations inoculated with the ectomycorrhizal fungus *Paxillus involutus* with special reference to summer drought 98 (1997) 221
Quercus rubra
Ectomycorrhizal colonization of *Quercus rubra* seedlings in response to vegetation removals in oak and pine stands 93 (1997) 91
Quercus suber L.
A quantitative approach to cork oak forest management 97 (1997) 223
Rainfall
Temporal and inter-tree variations of attack by *Hypsipyla robusta* moore (Lepidoptera: Pyralidae) in Australian Red Cedar (*Toona australis* (F. Muell.) Harmes) 96 (1997) 139
Rain forest
The effects of ecological rehabilitation on vegetation recruitment: some observations from the Wet Tropics of North Queensland 99 (1997) 133
Rainforest
Selection harvests in Amazonian rainforests: long-term impacts on soil properties 93 (1997) 153
Using plant functional attributes to quantify site productivity and growth patterns in mixed forests 94 (1997) 149
Rainforests
Effect of gap liberation on the performance and growth of dipterocarp trees in a logged-over rainforest 92 (1997) 209
Rainforest soils
Intensive plantation cropping, a source of sustainable food and energy production in the tropical rain forest areas in southeast Asia 91 (1997) 93
Random parameters
Height–diameter curves with random intercepts and slopes for trees growing on drained peatlands 97 (1997) 63
Rare species
A comparison of understorey vegetation between untouched and managed deciduous forest in Denmark 96 (1997) 111

Recruitment
The effects of ecological rehabilitation on vegetation recruitment: some observations from the Wet Tropics of North Queensland 99 (1997) 133
Red-cockaded woodpecker
Stand conditions and tree characteristics affect quality of longleaf pine for red-cockaded woodpecker cavity trees 91 (1997) 145
Reduced-impact logging
An experimental comparison of different harvesting intensities with reduced-impact and conventional logging in East Kalimantan, Indonesia 94 (1997) 209
Reforestation
Experimental determination of soil characteristics optimal for the growth of ten hardwoods planted on abandoned farmland 96 (1997) 49
Farm forestry: an alternative to government-driven reforestation in the Philippines 99 (1997) 261
The effect of overstory composition on understory woody regeneration and species richness in 7-year-old plantations in Costa Rica 99 (1997) 43
Tree seed predation on degraded hillsides in Hong Kong 99 (1997) 215
Refugia
Predicting late-successional fire refugia pre-dating European settlement in the Wenatchee Mountains 95 (1997) 63
Regeneration
Effect of gap liberation on the performance and growth of dipterocarp trees in a logged-over rainforest 92 (1997) 209
Initial responses of woody vegetation, water quality, and soils to harvesting intensity in a Texas bottomland hardwood ecosystem 90 (1997) 201
Natural regeneration of beech (*Fagus sylvatica* L.) with respect to canopy density, soil moisture and soil carbon content 97 (1997) 95
Predicting juvenile tree height growth in uneven-aged mixed species stands in Austria 97 (1997) 133
Seedling populations and regeneration of woody species in dry Afromontane forests of Ethiopia 98 (1997) 149
Soricid response to forest stand age in southern Appalachian cove hardwood communities 91 (1997) 175
The effect of a *Eucalyptus camaldulensis* (Dehn) plantation on native woodland recovery on Ulumba Mountain, southern Malawi 99 (1997) 63
The potential of plantations to foster woody regeneration within a deforested landscape in lowland Costa Rica 99 (1997) 55
Understory vegetation in fast-growing tree plantations on savanna soils in Congo 99 (1997) 65
Regeneration felling
Natural regeneration potential and early development of *Shorea robusta* Gaertn.f. forest after regeneration felling in the Bhabar-Terai zone in Nepal 92 (1997) 243
Regeneration of *Picea abies*
A model describing natural regeneration recruitment of Norway spruce (*Picea abies* (L.) Karst.) in Austria 97 (1997) 107
Regeneration strategies
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Regional
Regional patterns of local diversity of trees: associations with anthropogenic disturbance 93 (1997) 33
Regression
Models for the estimation of single tree volume in four Miombo woodland types 97 (1997) 25
Rehabilitation
Catalyzing native forest regeneration on degraded tropical lands 99 (1997) 1
The apparent paradox of reestablishing species richness on degraded lands with tree monocultures 99 (1997) 9
The effects of ecological rehabilitation on vegetation recruitment: some observations from the Wet Tropics of North Queensland 99 (1997) 133
Relative growth rates
The stand dynamics of a mixed coppice forest of shade-tolerant and intermediate species 95 (1997) 35
Relative size
Comparison of diameter-distribution-prediction, stand-table-projection, and individual-tree-growth modeling approaches for young red alder plantations 98 (1997) 49
Remote sensing
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Renewable energy
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
Research
Mangroves of China: a brief review 96 (1997) 241
Research evaluation
Does it pay to do silvicultural research on a slow growing species? 95 (1997) 141
Research methodologies
Potentials and limitations of agroforestry for changing land-use in the tropics: experiences from Central America 91 (1997) 61
Residual trees
Short-term changes in bird communities in response to silvicultural prescriptions 96 (1997) 27
Resin flow
Stand conditions and tree characteristics affect quality of longleaf pine for red-cockaded woodpecker cavity trees 91 (1997) 145
Resprouting, seedling establishment
Clearing of vegetation in Mediterranean garrigue: response after a wildfire 93 (1997) 227
Restoration
Development of species diversity in the restoration process of establishing a tropical man-made forest ecosystem in China 99 (1997) 185
Native forest regeneration in pine and eucalypt plantations in Northern Province, South Africa 99 (1997) 101

The effect of overstory composition on understory woody regeneration and species richness in 7-year-old plantations in Costa Rica 99 (1997) 43
The potential of plantations to foster woody regeneration within a deforested landscape in lowland Costa Rica 99 (1997) 55

Restoration ecology
Restoration of plant biodiversity beneath tropical tree plantations in Northern Australia 99 (1997) 117

Retranslocation
Changes in the canopy and growth of *Pinus radiata* in response to nitrogen supply 93 (1997) 137

Rhizome
The impact of broadcast burning and fire severity on species composition and abundance of surface vegetation in a jack pine (*Pinus banksiana*) clear-cut 94 (1997) 141

Riparian
Vegetation development of boreal riparian plant communities after flooding, fire, and logging, Peace River, Canada 93 (1997) 101

Riparian buffer strip
Agroforestry practice and policy in the United States of America 91 (1997) 5

Riparian zone
Gradient analysis in a riparian landscape: contrasts among forest layers 96 (1997) 13

Ripley's K statistic
Spatial models of competition and gap dynamics in old-growth *Tsuga heterophylla/Thuja plicata* forests 94 (1997) 175

Risk
A method for stochastic multiobjective optimization of stand management 98 (1997) 189

Risk attitude
A method for stochastic multiobjective optimization of stand management 98 (1997) 189

Risk management
Modelling probability of snow and wind damage in Scots pine stands using tree characteristics 97 (1997) 215

Riverine forests
Dynamics of the natural regeneration in the Gama gallery forest in central Brazil 91 (1997) 235

Roadside–stand correlation
Forest roadside sampling of larvae and adults of the western hemlock looper, *Lambdina fiscellaria lugubrosa* 93 (1997) 45

Robinia pseudoacacia
Stand characteristics of inter-cropped loblolly pine and black locust 91 (1997) 221

Rocky Mountains
Effectiveness of basal area for estimating canopy cover of ponderosa pine 95 (1997) 45

Rodents
Factors influencing amphibian and small mammal assemblages in central Appalachian forests 96 (1997) 65

Root anchorage
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229

Root bioassay
Reduced soil P availability in a Sitka spruce (*Picea sitchensis* (Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153

Root distribution
Distribution of roots, arbuscular mycorrhizal colonisation and spores around fast-growing tree species in Senegal 90 (1997) 19
Reaction of root systems of grand fir (*Abies grandis* Lindl.) and Norway spruce (*Picea abies* Karst.) to seasonal waterlogging 93 (1997) 9

Root growth potential
Pre-planting physiological stress assessment to forecast field growth performance of jack pine and black spruce 92 (1997) 107

Rooting
Effect of position, size of cuttings and environmental factors on adventitious rooting in neem (*Azadirachta indica* A. Juss) 98 (1997) 277
Rooting of *Shorea leprosula* stem cuttings decreases with increasing leaf area 91 (1997) 247

Rooting medium
Vegetative propagation of *Cordia alliodora* (Ruiz & Pavon) Oken: the effects of IBA concentration, propagation medium and cutting origin 92 (1997) 45

Roundwood costs
Financial, economic and environmental profitability of reforestation of *Imperata* grasslands in Indonesia 99 (1997) 247

Rural development
Human ecological questions for tropical restoration: experiences from planting native upland trees and mangroves in the Philippines 99 (1997) 275

Rural economy
Biomass energy in industrialised countries—a view of the future 91 (1997) 17

Russia
Age distribution patterns in open boreal Dahurican larch forests of Central Siberia 93 (1997) 205

Safe site
Seedling emergence of *Betula maximowicziana* following human disturbance and the role of buried viable seeds 93 (1997) 235

Salamanders
Factors influencing amphibian and small mammal assemblages in central Appalachian forests 96 (1997) 65

Salt tolerance
Photosynthetic response of *Populus euphratica* to salt stress 93 (1997) 55

Sampling
Temporal and spatial patterns of net photosynthesis in 12-year-old loblolly pine five growing seasons after thinning 97 (1997) 73

Sandy soils
Results of long-term K and Mg fertilizer experiments in afforestation 91 (1997) 47

Sap flow
Transpiration rate of *Prunus avium* L. seedlings inside an unventilated treeshelter 97 (1997) 255
Sapling
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Sapwood
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Savanna
Dynamics of the natural regeneration in the Gama gallery forest in central Brazil 91 (1997) 235
Scale
Modeling canopy structure and heterogeneity across scales: From crowns to canopy 96 (1997) 217
Scenario technique
A method for stochastic multiobjective optimization of stand management 98 (1997) 189
Schnute model
Comparison of Schnute's and Bertalanffy-Richards' growth functions 96 (1997) 283
Sclerotia
Changes and effects of a natural fire on ectomycorrhizal inoculum potential of soil in a *Pinus halepensis* forest 96 (1997) 189
Scots pine
Construction of site index equations for *Pinus sylvestris* L. using permanent plot data in Sweden 98 (1997) 125
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229
Modelling probability of snow and wind damage in Scots pine stands using tree characteristics 97 (1997) 215
More timber from boreal forests under changing climate? 94 (1997) 195
Results of long-term K and Mg fertilizer experiments in afforestation 91 (1997) 47
Tree stand biomass and carbon content in an age sequence of drained pine mires in southern Finland 93 (1997) 161
Screefing
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Seasonal tropical forest
Understanding and assisting natural regeneration processes in degraded seasonal evergreen forests in northern Thailand 99 (1997) 203
Seasonal waterlogging
Reaction of root systems of grand fir (*Abies grandis* Lindl.) and Norway spruce (*Picea abies* Karst.) to seasonal waterlogging 93 (1997) 9
Secondary forest
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
Rehabilitation and development of forest on degraded hills of Hong Kong 99 (1997) 197
Second order differential equations
Height growth modeling using second order differential equations and the importance of initial height growth 97 (1997) 165
Seed
The impact of broadcast burning and fire severity on species composition and abundance of surface vegetation in a jack pine (*Pinus banksiana*) clear-cut 94 (1997) 141
Seed bank
Seedling emergence of *Betula maximowicziana* following human disturbance and the role of buried viable seeds 93 (1997) 235
The effects of ecological rehabilitation on vegetation recruitment: some observations from the Wet Tropics of North Queensland 99 (1997) 133
Seedbed
The role of hair-cap mosses (*Polytrichum* spp.) in natural regeneration of white spruce (*Picea glauca* (Moench) Voss) 92 (1997) 19
Seed dispersal
Development of floristic diversity in 10-year-old restoration forests on a bauxite mined site in Amazonia 99 (1997) 21
Floristic and structural patterns along a chronosequence of secondary forest succession in Argentinean subtropical montane forests 95 (1997) 161
Rehabilitation and development of forest on degraded hills of Hong Kong 99 (1997) 197
The role of animal seed dispersal in accelerating native forest regeneration on degraded tropical lands 99 (1997) 223
Seed germination
Hurricane disturbance and the regeneration of *Lysiloma latisiliquum* (Fabaceae): a tropical tree in south Florida 92 (1997) 97
Understanding and assisting natural regeneration processes in degraded seasonal evergreen forests in northern Thailand 99 (1997) 203
Seedling emergence
The role of hair-cap mosses (*Polytrichum* spp.) in natural regeneration of white spruce (*Picea glauca* (Moench) Voss) 92 (1997) 19
Seedling establishment
Effects of scarification on seedbed coverage and natural regeneration after a group seed-tree cutting in a black spruce (*Picea mariana*) stand 94 (1997) 219
The role of hair-cap mosses (*Polytrichum* spp.) in natural regeneration of white spruce (*Picea glauca* (Moench) Voss) 92 (1997) 19
Understanding and assisting natural regeneration processes in degraded seasonal evergreen forests in northern Thailand 99 (1997) 203
Seedling growth
Forest damage caused by selection logging of mahogany (*Swietenia macrophylla*) in northern Belize 92 (1997) 87
Seedling recruitment
Population dynamics of five tree species in a monodominant Peltogyne forest and two other forest types on Maracá Island, Roraima, Brazil 94 (1997) 115

Seedlings
Vertebrate predation on Holm Oak, *Quercus ilex*, acorns in a fragmented habitat: effects on seedling recruitment 98 (1997) 181
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Seedling traits
Fruit, seed and seedling variation in *Uapaca kirkiana* from natural populations in Malawi 98 (1997) 209
Seed predation
Tree seed predation on degraded hillsides in Hong Kong 99 (1997) 215
Seed rain
Seedling emergence of *Betula maximowicziana* following human disturbance and the role of buried viable seeds 93 (1997) 235
Seed traits
Fruit, seed and seedling variation in *Uapaca kirkiana* from natural populations in Malawi 98 (1997) 209
Segregation index
Analysis and modeling of spatial stand structures. Methodological considerations based on mixed beech–larch stands in Lower Saxony 97 (1997) 237
Selective logging
An experimental comparison of different harvesting intensities with reduced-impact and conventional logging in East Kalimantan, Indonesia 94 (1997) 209
Effect of gap liberation on the performance and growth of dipterocarp trees in a logged-over rainforest 92 (1997) 209
Self-thinning
Regeneration behavior of competing plants after clear cutting: implications for vegetation management 95 (1997) 1
Semi-arid
Silvicultural treatments for sapling mesquite (*Prosopis glandulosa* var. *glandulosa*) to optimize timber production and minimize seedling encroachment 96 (1997) 231
Senna
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Sequestration
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
Sesbania
Growth and yield of eight agroforestry tree species in line plantings in Western Kenya and their effect on maize yields and soil properties 91 (1997) 103
Shade
Seedling populations and regeneration of woody species in dry Afromontane forests of Ethiopia 98 (1997) 149
Shelterwood
Effects of clearcutting and alternative silvicultural systems on rates of decomposition and nitrogen mineralization in a coastal montane coniferous forest 95 (1997) 253
Effects on the flora in Norway spruce forests following clearcutting and shelterwood cutting 90 (1997) 29
Shifting cultivation
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
'Without bamboo, the land dies': A conceptual model of the biogeochemical role of bamboo in an Indonesian agroforestry system 91 (1997) 83
'Without bamboo, the land dies': nutrient cycling and biogeochemistry of a Javanese bamboo *talun–kebun* system 91 (1997) 155
Shorea
Effect of gap liberation on the performance and growth of dipterocarp trees in a logged-over rainforest 92 (1997) 209
Shorea leprosula
Rooting of *Shorea leprosula* stem cuttings decreases with increasing leaf area 91 (1997) 247
Shorea robusta
Natural regeneration potential and early development of *Shorea robusta* Gaertn.f. forest after regeneration felling in the Bhabar-Terai zone in Nepal 92 (1997) 243
Short rotation plantation
Variation in biomass and net primary productivity in short rotation high density central Himalayan poplar plantations 98 (1997) 167
Shrews
Soricid response to forest stand age in southern Appalachian cove hardwood communities 91 (1997) 175
Silvicultural guide
Experimental determination of soil characteristics optimal for the growth of ten hardwoods planted on abandoned farmland 96 (1997) 49
Silvicultural intensification
Influence of silvicultural practices on twisting rust infection and damage in maritime pine, as related to growth 98 (1997) 135
Silviculture
A gap-based approach for development of silvicultural systems to address ecosystem management objectives 99 (1997) 337
Catalyzing native forest regeneration on degraded tropical lands 99 (1997) 1
Does it pay to do silvicultural research on a slow growing species? 95 (1997) 141
Influence of harvesting on biogeochemical exchange in sheetflow and soil processes in a eutrophic floodplain forest 90 (1997) 187
Influences of harvesting on functions of floodplain forests associated with low-order, blackwater streams 90 (1997) 217
Regional patterns of local diversity of trees: associations with anthropogenic disturbance 93 (1997) 33
Simulated stand characteristics and wood product yields from Douglas-fir plantations managed for ecosystem objectives 91 (1997) 205
Silvopasturing
Agroforestry practice and policy in the United States of America 91 (1997) 5
Simulation
Age distribution patterns in open boreal Dahurican larch forests of Central Siberia 93 (1997) 205

Development and testing of regeneration imputation models for forests in Minnesota 94 (1997) 129
Modeling canopy structure and heterogeneity across scales: From crowns to canopy 96 (1997) 217
Simulation model
A method for stochastic multiobjective optimization of stand management 98 (1997) 189
Simultaneous regression
Comparison of diameter-distribution-prediction, stand-table-projection, and individual-tree-growth modeling approaches for young red alder plantations 98 (1997) 49
Site index
Individual tree basal area growth models for young stands of Norway spruce in Sweden 97 (1997) 173
White spruce foliar nutrient concentrations in relation to tree growth and soil nutrient amounts 98 (1997) 89
Site preparation
Effects of scarification on seedbed coverage and natural regeneration after a group seed-tree cutting in a black spruce (*Picea mariana*) stand 94 (1997) 219
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Site productivity
The use of soil organic matter as a criterion of the relative sustainability of forest management alternatives: a modelling approach using FORECAST 94 (1997) 61
Using plant functional attributes to quantify site productivity and growth patterns in mixed forests 94 (1997) 149
Slash-and-burn agriculture
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
Small mammals
Factors influencing amphibian and small mammal assemblages in central Appalachian forests 96 (1997) 65
Softwood
Basing silviculture on natural ecosystem dynamics: an approach applied to the southern boreal mixedwood forest of Quebec 92 (1997) 235
Soil
Selection harvests in Amazonian rainforests: long-term impacts on soil properties 93 (1997) 153
Soil acidification
Reduced soil P availability in a Sitka spruce (*Picea sitchensis* (Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153
Soil carbon content
Natural regeneration of beech (*Fagus sylvatica* L.) with respect to canopy density, soil moisture and soil carbon content 97 (1997) 95
Soil chemistry
Effects of liming and fertilization on growth, soil chemistry and soil water chemistry in a Norway spruce plantation on a nutrient-poor soil in Denmark 92 (1997) 55
Long-term effects of commercial sawlog harvest on soil cation concentrations 93 (1997) 1
Soil compaction
Forest damage caused by selection logging of mahogany (*Swietenia macrophylla*) in northern Belize 92 (1997) 87
Soil fauna
Litter decomposition in semideciduous forest and *Eucalyptus* spp. crop in Brazil: a comparison 94 (1997) 31
Soil microorganisms
Effect of phenolic compounds on selected soil properties 92 (1997) 11
Soil mixing
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Soil moisture
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Soil organic matter
The use of soil organic matter as a criterion of the relative sustainability of forest management alternatives: a modelling approach using FORECAST 94 (1997) 61
Soil P availability
Reduced soil P availability in a Sitka spruce (*Picea sitchensis* (Bong.) Carr) plantation induced by applied acid-mist: significance in forest decline 92 (1997) 153
Soil processes
Nitrogen transformations and soil processes in a wastewater-irrigated, mature Appalachian hardwood forest 90 (1997) 1
Soil respiration
Initial responses of woody vegetation, water quality, and soils to harvesting intensity in a Texas bottomland hardwood ecosystem 90 (1997) 201
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Soil scarification
Influence of mechanical site preparation on decomposition and nutrient dynamics of Norway spruce (*Picea abies* (L.) Karst.) needle litter and slash needles 96 (1997) 101
Soil temperature
Soil respiration following site preparation treatments in boreal mixedwood forest 97 (1997) 265
Soil-type effect
Acidification of forest top soils in 60 years to the southwest of Helsinki 94 (1997) 187
Soil water
Effects of liming and fertilization on growth, soil chemistry and soil water chemistry in a Norway spruce plantation on a nutrient-poor soil in Denmark 92 (1997) 55
Soil water content
Natural regeneration of beech (*Fagus sylvatica* L.) with respect to canopy density, soil moisture and soil carbon content 97 (1997) 95
Variation in shoot water status of *Picea abies* (L.) Karst. trees with different life histories 97 (1997) 53
Soricids
Soricid response to forest stand age in southern Appalachian cove hardwood communities 91 (1997) 175
South Carolina
A comparison of wetland tree growth response to hydrologic regime in Louisiana and South Carolina 90 (1997) 237
Sparse forests
Age distribution patterns in open boreal Dahurican larch forests of Central Siberia 93 (1997) 205

Spatial autocorrelation
Forest roadside sampling of larvae and adults of the western hemlock looper, *Lambdina fiscellaria lugubrosa* 93 (1997) 45
Spatial decision support system
Geographical information systems in long-term forest management and planning with special reference to preservation of biological diversity: a review 93 (1997) 121
Spatial pattern
Analysis and modeling of spatial stand structures. Methodological considerations based on mixed beech–larch stands in Lower Saxony 97 (1997) 237
Modeling canopy structure and heterogeneity across scales: From crowns to canopy 96 (1997) 217
Spatial pattern analysis
Spatial models of competition and gap dynamics in old-growth *Tsuga heterophylla/Thuja plicata* forests 94 (1997) 175
Spatial randomness
Spectral techniques in spatial analysis 94 (1997) 165
Species diversity
A comparison of understorey vegetation between untouched and managed deciduous forest in Denmark 96 (1997) 111
Development and testing of regeneration imputation models for forests in Minnesota 94 (1997) 129
Development of species diversity in the restoration process of establishing a tropical man-made forest ecosystem in China 99 (1997) 185
Initial responses of woody vegetation, water quality, and soils to harvesting intensity in a Texas bottomland hardwood ecosystem 90 (1997) 201
Species groups
Using plant functional attributes to quantify site productivity and growth patterns in mixed forests 94 (1997) 149
Species invasion
Spectral techniques in spatial analysis 94 (1997) 165
Species richness
Regional patterns of local diversity of trees: associations with anthropogenic disturbance 93 (1997) 33
Understory vegetation in fast-growing tree plantations on savanna soils in Congo 99 (1997) 65
Species–site relationships
Development and ecology of bottomland hardwood sites 90 (1997) 117
Specificity
Mycorrhizal status of some fungi fruiting beneath indigenous trees in Burkina Faso 98 (1997) 61
Spectral tests
Spectral techniques in spatial analysis 94 (1997) 165
Spiders
Structure and abundance of arachnid communities in Scots and lodgepole pine plantations 95 (1997) 197
Spore numbers
Distribution of roots, arbuscular mycorrhizal colonisation and spores around fast-growing tree species in Senegal 90 (1997) 19
Sporobolus curtissii (Vasey) Small ex Scribn.
Long-term effects of dormant-season prescribed fire on plant community diversity, structure and productivity in a longleaf pine wiregrass ecosystem 96 (1997) 167
Sporocarps
Truffle production in old-growth and mature fir stands in northeastern California 96 (1997) 155
Stable age distribution
Recovery of the rain forest tree *Vochysia ferruginea* over 5 years following Hurricane Joan in Nicaragua: a preliminary population projection matrix 91 (1997) 195
Stage
Recovery of the rain forest tree *Vochysia ferruginea* over 5 years following Hurricane Joan in Nicaragua: a preliminary population projection matrix 91 (1997) 195
Stand dynamics
Successional changes in plant species diversity and composition after clearcutting a Southern Appalachian watershed 92 (1997) 67
The stand dynamics of a mixed coppice forest of shade-tolerant and intermediate species 95 (1997) 35
Stand establishment
Seed and seedling variation amongst provenances in *Faidherbia albida* 97 (1997) 197
Stand management
Silvicultural models to maintain and restore natural stand structures in Swedish boreal forests 94 (1997) 89
Stand simulation
Predicting juvenile tree height growth in uneven-aged mixed species stands in Austria 97 (1997) 133
Stand structure
Improving the simulation of stand structure in a forest gap model 95 (1997) 183
Stand conditions and tree characteristics affect quality of longleaf pine for red-cockaded woodpecker cavity trees 91 (1997) 145
Stand structure and successional trends in virgin boreal forest reserves in Sweden 98 (1997) 17
Stand structure generator
Analysis and modeling of spatial stand structures. Methodological considerations based on mixed beech–larch stands in Lower Saxony 97 (1997) 237
Stem bark biomass
Biomass equations for sixty-five North American tree species 97 (1997) 1
Stem breakage
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229
Stemflow determination
Stemflow determination in forest stands 97 (1997) 231
Stem wood biomass
Biomass equations for sixty-five North American tree species 97 (1997) 1
Stomatal conductance
An ecophysiological evaluation of the suitability of *Eucalyptus grandis* for planting in the tropics 95 (1997) 53
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293

Strategic planning
A quantitative approach to cork oak forest management 97 (1997) 223
Stratification
Development and testing of regeneration imputation models for forests in Minnesota 94 (1997) 129
Streamflow
The response in water yield to the thinning of *Pinus radiata*, *Pinus patula* and *Eucalyptus grandis* plantations 99 (1997) 295
Structural changes
Long-term species and structural changes after cleaning young even-aged northern hardwoods in New Hampshire, USA 95 (1997) 11
Structural equation model
Stability of height positions in young naturally regenerated stands of Scots pine 97 (1997) 155
Stump coppice
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Subtropical
Enrichment planting in overexploited subtropical forests of the Paranaense region of Misiones, Argentina 99 (1997) 237
Success indicators
Farm forestry: an alternative to government-driven reforestation in the Philippines 99 (1997) 261
Succession
Basing silviculture on natural ecosystem dynamics: an approach applied to the southern boreal mixedwood forest of Quebec 92 (1997) 235
Catalyzing native forest regeneration on degraded tropical lands 99 (1997) 1
Composition, structure and management potential of secondary dry tropical vegetation in two abandoned henequen plantations of Yucatan, Mexico 94 (1997) 79
Composition, structure, and management potential of secondary dry tropical vegetation in two abandoned henequen plantations of Yucatan, Mexico 96 (1997) 273
Development and ecology of bottomland hardwood sites 90 (1997) 117
Development of floristic diversity in 10-year-old restoration forests on a bauxite mined site in Amazonia 99 (1997) 21
Effects on the flora in Norway spruce forests following clearcutting and shelterwood cutting 90 (1997) 29
Native forest regeneration in pine and eucalypt plantations in Northern Province, South Africa 99 (1997) 101
Rehabilitation and development of forest on degraded hills of Hong Kong 99 (1997) 197
The apparent paradox of reestablishing species richness on degraded lands with tree monocultures 99 (1997) 9
Vegetation development of boreal riparian plant communities after flooding, fire, and logging, Peace River, Canada 93 (1997) 101
Successional forest
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
Successional trends
Stand structure and successional trends in virgin boreal forest reserves in Sweden 98 (1997) 17
Sulfate
Stream water and soil solution responses to 5 years of nitrogen and sulfur additions at the Fernow Experimental Forest, West Virginia 95 (1997) 79
Survival
Seedling populations and regeneration of woody species in dry Afromontane forests of Ethiopia 98 (1997) 149
Sustainability
Alley cropping—soil productivity and nutrient recycling 91 (1997) 75
Intensive plantation cropping, a source of sustainable food and energy production in the tropical rain forest areas in southeast Asia 91 (1997) 93
Sustainable development
Sustainable development of non-timber forest products: implication for forest management in India 94 (1997) 15
Sustainable extraction
Canopy removal and residual stand damage during controlled selective logging in lowland swamp forest of northeast Costa Rica 95 (1997) 117
Swidden
Brazilian Amazonian *caboclo* agriculture: effect of fallow period on maize yield 97 (1997) 283
Tabular models
Development and testing of regeneration imputation models for forests in Minnesota 94 (1997) 129
Tall fescue
Stand characteristics of inter-cropped loblolly pine and black locust 91 (1997) 221
Talun-kebun
'Without bamboo, the land dies': A conceptual model of the biogeochemical role of bamboo in an Indonesian agroforestry system 91 (1997) 83
Tarai
Variation in biomass and net primary productivity in short rotation high density central Himalayan poplar plantations 98 (1997) 167
Temperate deciduous forest
Variation in the amount of dead wood in the woodlands of the Lower Wye Valley, UK in relation to the intensity of management 98 (1997) 229
Temperature
Temporal and inter-tree variations of attack by *Hypsipyla robusta* moore (Lepidoptera: Pyralidae) in Australian Red Cedar (*Toona australis* (F. Muell.) Harmes) 96 (1997) 139
Terra firme forest
Population dynamics of five tree species in a monodominant Peltogyne forest and two other forest types on Maracá Island, Roraima, Brazil 94 (1997) 115
Terrain
The role of terrain in a fire mosaic of a temperate coniferous forest 95 (1997) 97

Thailand
Understanding and assisting natural regeneration processes in degraded seasonal evergreen forests in northern Thailand 99 (1997) 203
Thinning
Modeling survival in juvenile and mature loblolly pine plantations 90 (1997) 51
More timber from boreal forests under changing climate? 94 (1997) 195
Temporal and spatial patterns of net photosynthesis in 12-year-old loblolly pine five growing seasons after thinning 97 (1997) 73
The response in water yield to the thinning of *Pinus radiata*, *Pinus patula* and *Eucalyptus grandis* plantations 99 (1997) 295
Three-stage least squares
Crown profile models based on branch attributes in coastal Douglas-fir 96 (1997) 77
Throughfall chemistry
Atmospheric deposition and impact of forest thinning on the throughfall of mountain forest ecosystems in the Bavarian Alps 95 (1997) 243
Timber harvesting
Improved harvesting systems for wet sites 90 (1997) 155
Recovery status of a tupelo–cypress wetland seven years after disturbance: silvicultural implications 90 (1997) 161
Timber production
Silvicultural models to maintain and restore natural stand structures in Swedish boreal forests 94 (1997) 89
Simulated stand characteristics and wood product yields from Douglas-fir plantations managed for ecosystem objectives 91 (1997) 205
Timber yield
More timber from boreal forests under changing climate? 94 (1997) 195
Tip-up pit
Hurricane disturbance and the regeneration of *Lysiloma latisiliquum* (Fabaceae): a tropical tree in south Florida 92 (1997) 97
Toona ciliata
Restoration of plant biodiversity beneath tropical tree plantations in Northern Australia 99 (1997) 117
Topoedaphic controls
Factors influencing the availability of nitrogen in thinned and unthinned Douglas-fir stands in the central Oregon Cascades 93 (1997) 195
Traditional management
Environmental determinants of plant and bird diversity in ancient oak–hazel woodland in Sweden 91 (1997) 137
Transpiration
An ecophysiological evaluation of the suitability of *Eucalyptus grandis* for planting in the tropics 95 (1997) 53
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Transpiration rate
Transpiration rate of *Prunus avium* L. seedlings inside an unventilated treeshelter 97 (1997) 255
Trapping culture
Mycorrhizal status of some fungi fruiting beneath indigenous trees in Burkina Faso 98 (1997) 61
Tree breeding
Resistance to the green spruce aphid (*Elatobium abietinum* Walker) in progenies of Sitka spruce (*Picea sitchensis* (Bong) Carr.) 97 (1997) 207
Tree damage
Forest damage caused by selection logging of mahogany (*Swietenia macrophylla*) in northern Belize 92 (1997) 87
Tree effect
Acidification of forest top soils in 60 years to the southwest of Helsinki 94 (1997) 187
Tree growing
Farm forestry: an alternative to government-driven reforestation in the Philippines 99 (1997) 261
Tree growth
A comparison of wetland tree growth response to hydrologic regime in Louisiana and South Carolina 90 (1997) 237
Comparison of growth and nutrition of young monocultures and mixed stands of *Eucalyptus globulus* and *Acacia mearnsii* 94 (1997) 105
Tree limit
Age distribution patterns in open boreal Dahurican larch forests of Central Siberia 93 (1997) 205
Tree morphology
Early growth of six native Australian tree species in windbreaks and their effect on potato growth in tropical northern Australia 95 (1997) 21
Tree plantations
Invasibility of tree plantations by native and non-indigenous plant species in Hawaii 99 (1997) 153
The apparent paradox of reestablishing species richness on degraded lands with tree monocultures 99 (1997) 9
Tree recruitment
Predicting juvenile tree height growth in uneven-aged mixed species stands in Austria 97 (1997) 133
Tree-rings
Modeling diameter growth for pinyon and juniper trees in dryland forests 93 (1997) 21
Trees
Regional patterns of local diversity of trees: associations with anthropogenic disturbance 93 (1997) 33
Tree selection
Experimental determination of soil characteristics optimal for the growth of ten hardwoods planted on abandoned farmland 96 (1997) 49
Treeshelter
Transpiration rate of *Prunus avium* L. seedlings inside an unventilated treeshelter 97 (1997) 255
Tree size
Temporal and inter-tree variations of attack by *Hypsipyla robusta* moore (Lepidoptera: Pyralidae) in Australian Red Cedar (*Toona australis* (F. Muell.) Harmes) 96 (1997) 139

Tree species
Distribution of roots, arbuscular mycorrhizal colonisation and spores around fast-growing tree species in Senegal 90 (1997) 19
Tree species dynamics
The structure of forest stands in virgin and managed peatlands: a comparison between Finnish and Russian Karelia 96 (1997) 125
Tree species effects on soils
Bioassays of the influence of *Eucalyptus saligna* and *Albizia falcataria* on soil nutrient supply and limitation 91 (1997) 229
Tropical forest
Vine management for reduced-impact logging in eastern Amazonia 98 (1997) 105
Wood density for estimating forest biomass in Brazilian Amazonia 90 (1997) 59
Tropical forest plantations
Bioassays of the influence of *Eucalyptus saligna* and *Albizia falcataria* on soil nutrient supply and limitation 91 (1997) 229
Tropical forestry
Canopy removal and residual stand damage during controlled selective logging in lowland swamp forest of northeast Costa Rica 95 (1997) 117
The apparent paradox of reestablishing species richness on degraded lands with tree monocultures 99 (1997) 9
Tropical forests
Human ecological questions for tropical restoration: experiences from planting native upland trees and mangroves in the Philippines 99 (1997) 275
Tropical hardwoods
Integrated forest products from former sugarcane plantations in Hawaii 92 (1997) 29
Tropical plantation
The potential of plantations to foster woody regeneration within a deforested landscape in lowland Costa Rica 99 (1997) 55
Tropical seasonal rain forest
Development of species diversity in the restoration process of establishing a tropical man-made forest ecosystem in China 99 (1997) 185
Tropical trees
Mycorrhizal status of some fungi fruiting beneath indigenous trees in Burkina Faso 98 (1997) 61
Turning moment
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229
Turnover
Variation in biomass and net primary productivity in short rotation high density central Himalayan poplar plantations 98 (1997) 167
Turnover rate
Influence of mechanical site preparation on decomposition and nutrient dynamics of Norway spruce (*Picea abies* (L.) Karst.) needle litter and slash needles 96 (1997) 101
Uapaca kirkiana
Fruit, seed and seedling variation in *Uapaca kirkiana* from natural populations in Malawi 98 (1997) 209
Understory vegetation
Invasibility of tree plantations by native and non-indigenous plant species in Hawaii 99 (1997) 153
Uneven-aged regeneration
Silvicultural systems for southern bottomland hardwood forests 90 (1997) 127
United States
Regional patterns of local diversity of trees: associations with anthropogenic disturbance 93 (1997) 33
Unmanaged forests
Storms drive successional dynamics in natural forests: a case study in Fontainebleau forest (France) 98 (1997) 1
Uprooting
Model computations on the critical combination of snow loading and windspeed for snow damage of scots pine, Norway spruce and Birch sp. at stand edge 95 (1997) 229
Uprootings and windbreaks
Storms drive successional dynamics in natural forests: a case study in Fontainebleau forest (France) 98 (1997) 1
USA
A comparison of wetland tree growth response to hydrologic regime in Louisiana and South Carolina 90 (1997) 237
Aboveground biomass distribution of US eastern hardwood forests and the use of large trees as an indicator of forest development 96 (1997) 37
The bottomland hardwood forest of the southern United States 90 (1997) 101
Vaccinium myrsinites Lam. flatwoods
Long-term effects of dormant-season prescribed fire on plant community diversity, structure and productivity in a longleaf pine wiregrass ecosystem 96 (1997) 167
Vapour pressure deficit
Variation in shoot water status of *Picea abies* (L.) Karst. trees with different life histories 97 (1997) 53
Variogram
Geostatistics in evaluating forest damage surveys: considerations on methods for describing spatial distributions 95 (1997) 131
Vascular plants
A comparison of understorey vegetation between untouched and managed deciduous forest in Denmark 96 (1997) 111
Environmental determinants of plant and bird diversity in ancient oak–hazel woodland in Sweden 91 (1997) 137
Vector analysis
Using vector analysis to assess nitrogen status of ponderosa and Jeffrey pine along deposition gradients in forests of southern California 94 (1997) 47
Vegetation
Effects on the flora in Norway spruce forests following clearcutting and shelterwood cutting 90 (1997) 29
Gradient analysis in a riparian landscape: contrasts among forest layers 96 (1997) 13
Vegetation analysis
A comparison of understorey vegetation between untouched and managed deciduous forest in Denmark 96 (1997) 111
Vegetation change
Tornado and fire effects on tree species composition in a

savanna in the Big Thicket National Preserve, southeast Texas, USA 91 (1997) 279
Vegetation indices
A study of habitat fragmentation in Southeastern Brazil using remote sensing and geographic information systems (GIS) 98 (1997) 35
Vegetation management
Growth responses of young Douglas-fir and tanoak 11 years after various levels of hardwood removal and understory suppression in southwestern Oregon, USA 96 (1997) 1
Vegetation patterns
Predicting late-successional fire refugia pre-dating European settlement in the Wenatchee Mountains 95 (1997) 63
Vegetation removal
Ectomycorrhizal colonization of *Quercus rubra* seedlings in response to vegetation removals in oak and pine stands 93 (1997) 91
Vegetative propagation
Vegetative propagation of *Cordia alliodora* (Ruiz & Pavon) Oken: the effects of IBA concentration, propagation medium and cutting origin 92 (1997) 45
Vertebrate predation
Vertebrate predation on Holm Oak, *Quercus ilex*, acorns in a fragmented habitat: effects on seedling recruitment 98 (1997) 181
Vesicular–arbuscular mycorrhizae
Effect of endomycorrhizae (VAM) on bamboo seedling growth and biomass productivity 98 (1997) 205
Virgin forests
Stand structure and successional trends in virgin boreal forest reserves in Sweden 98 (1997) 17
Vochysia
The effect of overstory composition on understory woody regeneration and species richness in 7-year-old plantations in Costa Rica 99 (1997) 43
The potential of plantations to foster woody regeneration within a deforested landscape in lowland Costa Rica 99 (1997) 55
Volume models
Models for the estimation of single tree volume in four Miombo woodland types 97 (1997) 25
Washington Cascade Mountains
Predicting late-successional fire refugia pre-dating European settlement in the Wenatchee Mountains 95 (1997) 63
Wasted wood
An experimental comparison of different harvesting intensities with reduced-impact and conventional logging in East Kalimantan, Indonesia 94 (1997) 209
Water chemistry
Influence of harvesting on biogeochemical exchange in sheetflow and soil processes in a eutrophic floodplain forest 90 (1997) 187
Water potential
Variation in shoot water status of *Picea abies* (L.) Karst. trees with different life histories 97 (1997) 53
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Water quality
Sedimentation associated with forest road surfacing in a bottomland hardwood ecosystem 90 (1997) 195
Water relations
Rooting of *Shorea leprosula* stem cuttings decreases with increasing leaf area 91 (1997) 247
Vegetative propagation of *Cordia alliodora* (Ruiz & Pavon) Oken: the effects of IBA concentration, propagation medium and cutting origin 92 (1997) 45
Water relations of jarrah (*Eucalyptus marginata*) regeneration from the seedling to the mature tree and of stump coppice 97 (1997) 293
Watershed
Atmospheric deposition and impact of forest thinning on the throughfall of mountain forest ecosystems in the Bavarian Alps 95 (1997) 243
Watersheds
Nitrogen saturation in Japanese forests: an evaluation 97 (1997) 39
Water use
An ecophysiological evaluation of the suitability of *Eucalyptus grandis* for planting in the tropics 95 (1997) 53
Water yield
The response in water yield to the thinning of *Pinus radiata*, *Pinus patula* and *Eucalyptus grandis* plantations 99 (1997) 295
Weather
A generalised model of forest productivity using simplified concepts of radiation-use efficiency, carbon balance and partitioning 95 (1997) 209
Weather and soil variables
Augmenting empirical stand projection equations with edaphic and climatic variables 98 (1997) 267
Weibull distribution
A model describing natural regeneration recruitment of Norway spruce (*Picea abies* (L.) Karst.) in Austria 97 (1997) 107
Age distribution patterns in open boreal Dahurican larch forests of Central Siberia 93 (1997) 205
Weibull function
Comparison of diameter-distribution-prediction, stand-table-projection, and individual-tree-growth modeling approaches for young red alder plantations 98 (1997) 49
Wetland forests
Effects of silvicultural activity on ecological processes in floodplain forests of the southern United States: a review of existing reports 90 (1997) 93
Influence of harvesting on biogeochemical exchange in sheetflow and soil processes in a eutrophic floodplain forest 90 (1997) 187
Influences of harvesting on functions of floodplain forests associated with low-order, blackwater streams 90 (1997) 217
Sedimentation associated with forest road surfacing in a bottomland hardwood ecosystem 90 (1997) 195
Wetlands
Initial responses of woody vegetation, water quality, and soils to harvesting intensity in a Texas bottomland hardwood ecosystem 90 (1997) 201

Wet site
Improved harvesting systems for wet sites 90 (1997) 155
White spruce
Vegetation development of boreal riparian plant communities after flooding, fire, and logging, Peace River, Canada 93 (1997) 101
Wildfire
The role of terrain in a fire mosaic of a temperate coniferous forest 95 (1997) 97
Wildfires
Conditions determining natural regeneration after wildfires in the *Pinus halepensis* (Miller, 1768) forests of Kassandra Peninsula (North Greece) 92 (1997) 199
Wildlife
Development of floristic diversity in 10-year-old restoration forests on a bauxite mined site in Amazonia 99 (1997) 21
Simulated stand characteristics and wood product yields from Douglas-fir plantations managed for ecosystem objectives 91 (1997) 205
The role of animal seed dispersal in accelerating native forest regeneration on degraded tropical lands 99 (1997) 223
Wildlife communities
Landscape-level effects of forest management on faunal diversity in bottomland hardwoods 90 (1997) 141
Wildlife habitat
Identification and description of forested vegetation communities available to woodland caribou: relating wildlife habitat to forest cover data 93 (1997) 245
Windbreak
Agroforestry practice and policy in the United States of America 91 (1997) 5
Wind damage
Early growth of six native Australian tree species in windbreaks and their effect on potato growth in tropical northern Australia 95 (1997) 21
Woodland
Environmental determinants of plant and bird diversity in ancient oak–hazel woodland in Sweden 91 (1997) 137
Wood products
Simulated stand characteristics and wood product yields from Douglas-fir plantations managed for ecosystem objectives 91 (1997) 205
Wood properties
Simulated stand characteristics and wood product yields from Douglas-fir plantations managed for ecosystem objectives 91 (1997) 205
Yield
Manipulation of conventional forest management practices to increase forest growth—results from the Skogaby project 91 (1997) 53
Yungas
Floristic and structural patterns along a chronosequence of secondary forest succession in Argentinean subtropical montane forests 95 (1997) 161
